

PROGRAM OVERVIEW

Diagnostic medical sonographers and vascular technologists are skilled professionals who operate specialized equipment to conduct tests and create high-quality sonographic images of internal structures of the human body. Physicians review the findings of these examinations to form a medical diagnosis. Sonographers can also be involved during procedures where views of internal structures are acquired in real-time to aid physicians. Upon graduation from the Diagnostic Medical Sonography/Vascular Technology programs, students can sit for the [American Registry for Diagnostic Medical Sonographers](#) credentialing exams in the Abdomen, OB/GYN, and Vascular Technology specialties.

APPLICATION REQUIREMENTS

GPA of 2.50 or higher

A minimum 2.50 cumulative GPA is required in all coursework taken at any accredited institution.

Prerequisite Courses

By the end of the Spring semester of 2024, all prerequisite courses or equivalents must be completed with a C- or higher.

Online Application

The application is available [online](#) and must be completed and submitted with all required supplemental documents. Application FAQ can be found [here](#).

Observation Hours

Please review the full observation hour requirement [here](#).

A personal interview will be offered to competitive applicants. Knowledge of the profession and personal career goals will be evaluated then. The program will give individual consideration in the admission assessment to courses taken and applicant experiences.

APPLICATION DEADLINE

The Radiologic Sciences and Therapy program admits students once per year, with students beginning the program in the Autumn semester. The application deadline for Autumn 2024 is January 31, 2024. The professional program will begin on August 20, 2024.

DEGREE REQUIREMENTS

The minimum hours to graduate from The Ohio State University with a Bachelor of Science in Health and Rehabilitation Sciences is 120 credit hours. The Sonography program requires 135 credit hours, not including HTHRHSC 1100. Students should reference their [degree audit](#) to ensure they complete all required degree components. This includes general education, program prerequisites, and professional curriculum.

PREREQUISITE COURSES

These courses must be completed before beginning professional coursework. Ohio State course numbers are shown below.

Math 1148 & 1149, or 1150

Chemistry 1110 or 1210

Biology 1113

Physics 1200

Physics 1201

Anatomy 2300, 3300, or EEOB 2510

EEOB 2520, or PHYSIO 3200

Psychology 1100

English 1110

HTHRHSC 2500

HTHRHSC 5500

HTHRHSC 5370 or PUBHHMP 3610

Radiologic Sciences and Therapy

Sonography (GEL)

RadSci 4689 Vascular Practicum 1	7	RadSci 4630 Transition to Clinical	2
Total	12	Total	12

The above plan demonstrates how students may complete the Sonography program in nine semesters, including one summer term. It is assumed that admitted students following this plan will begin professional coursework in the autumn semester of year three (3). There is flexibility in a student taking courses in years one (1) and two (2). However, in years three (3) and four (4), the curriculum is more structured with limited ability to change. Students may choose to take non-professional courses over summer terms.

It is highly recommended that students take all GE courses before starting the professional program. The professional curriculum is completed in sequence, and there is no provision for part-time or evening-only enrollment. Students who intend to transfer credit to Ohio State may view how credit is accepted on [Transferology.com](https://www.transferology.com).

Ohio State academic programs are designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure and certification and state licensing board contact information [here](#) for online programs and [here](#) for on-campus programs.
