HRS Student Handbook 2021-2022

Real World. Bright Future.
Updated August 1, 2021
Welcome to the School of Health and Rehabilitation Sciences (HRS)!

As you begin your professional and academic training, there are specific policies, guidelines and procedures that will support your future success. This Student Handbook serves as a guide for students enrolled in HRS undergraduate and graduate academic programs.

The content of this handbook is an official communication of the policies and procedures of the School from the faculty to students enrolled in their academic programs. Students are required to know and understand the rules and regulations that govern the University community (including the School) and campus as a whole.

The School of Health and Rehabilitation Sciences Student Handbook supplements, but does not replace, official policies and procedures from the University. Students directly admitted to undergraduate HRS professional programs as freshman or sophomores follow the policies and procedures found in this handbook as well as their individual program’s student handbook. The student’s program handbook will supplement and provide detailed information pertaining to the individual professional program.

Each student is encouraged to review and become familiar with policies and procedures pertaining to such matters as student code of ethics, professionalism standards, student life, academic support services, program and professional actions, and other important information found on Buckeyelink, handbooks, and other similar published matter.

The Ohio State University “Code of Student Conduct” is available online: http://studentconduct.osu.edu/

This handbook is effective as of August 1, 2021 and supersedes any previous version of this handbook.
Overview of the School

The School of Health and Rehabilitation Sciences is a School within the College of Medicine at The Ohio State University. The school offers multiple academic programs many of which lead to a professional credential.

Our professional programs admit a specific number of students once each year based on the program’s professional accreditation standards. Once admitted, students will proceed through educational training in a lock-step manner through a defined professional curriculum.

Health Sciences, noted with an asterisk (*), does not lead to professional certification and has more flexible admissions dates and course schedules.

Undergraduate Programs
- Athletic Training
- Health Information Management & Systems
- Health Information Management & Systems: Post baccalaureate certificate
- Health Sciences (On ground and Online) *
- Medical Dietetics: Coordinated Undergraduate
- Medical Laboratory Science: Certification Track; Medical Science Track; MLT Articulation
- Radiologic Sciences and Therapy: Radiography, Radiation Therapy, Diagnostic Medical Sonography
- Radiologic Sciences and Therapy Degree Completion (On ground and Online))
- Respiratory Therapy

Graduate Programs
- Doctorate of Occupational Therapy
- Doctorate of Physical Therapy
- Master of Dietetics and Nutrition
- Master of Respiratory Therapy
- Master of Science in Health and Rehabilitation Sciences
- Master of Science in Health and Rehabilitation Sciences with Dietetic Internship
- Medical Laboratory Science Coordinated Graduate Program
- PhD in Health and Rehabilitation Sciences
Mission and Vision of the School of Health and Rehabilitation Sciences

Mission
To develop transformative leaders in health and rehabilitation sciences.

Vision
The School strives to be a global leader in advancing scholarship, education and practice in health and rehabilitation sciences.

Principles and Values
HRS students will behave in a manner consistent with the following principles of professionalism to foster and maintain a culture that facilitates these attributes and behaviors:

- **ALTRUISM**
  - Assist other HRS students in need;
  - Contribute to a positive image of the healthcare profession;
  - Serve the interests and welfare of the patient and the community above our own self-interest.

- **HONESTY AND INTEGRITY**
  - Respect the rights of patients, faculty, staff, colleagues, and other health professionals;
  - Safeguard patient confidences and privacy within the constraints of the law;
  - Deal with confidential information appropriately and discreetly;
  - Understand the general principles of ethical behavior and their application to performance expectations of any course of study, examination, or other evaluations.

- **CARING AND COMPASSION**
  - Treat each client as an individual with respect, empathy, and dignity both in the family’s presence and in discussions with other members of the health care team;
  - Handle issues of sickness, dying, and death in a professional manner with patients and their families;
  - Refrain from abusing authority.

- **SERVICE**
  - Participate in and contribute to the betterment of the public health community in a productive manner;
  - Participate in and contribute to peer groups, local, national and/or international organizations.

- **EXCELLENCE AND SCHOLARSHIP**
  - Recognize one’s own deficiencies and endeavor to correct them, requesting help when needed;
  - Strive to improve one’s self in the integration and transmission of knowledge;
  - Collaborate with and assist peers, colleagues, and other health professionals appropriately for the advancement of scientific knowledge and skills;
  - Commit to self-directed and life-long learning.

- **RESPECT FOR PERSONS**
Demonstrate respect for Faculty, Instructors, Staff, Peers, Patients, and Families
• Treat those with whom they work with respect, trust, and dignity;
• Refrain from engaging in unwanted/inappropriate romantic and sexual behaviors or any other unprofessional behaviors;
• Respect rights such as privacy, confidentiality, and informed consent;
• Communicate in a sensitive manner and do not discriminate on the basis of age, gender, intelligence, medical condition, nationality or ethnic origin, physical or mental disability, race, religion, sexual orientation, or socioeconomic status.

RESPONSIBILITY AND ACCOUNTABILITY
• Maintain academic, patient care and service as our highest priority;
• Be accountable for deadlines and complete assignments/responsibilities in a timely fashion;
• Consistently be on time, attentive, and prepared for class, clinical experiences, and other program activities;
• Recognize and report peers’ errors, fraud, poor behavior, deficiency in character, and incompetence;
• Identify one’s own limitations and developmental needs, and seek approaches for improvement;
• Present oneself in a professional manner with respect to dress, hygiene, body language, composure, and gestures.
• Maintain your personal health and wellness. This includes seeking appropriate medical care to keep yourself fit to practice, refraining from excessive use of alcohol, refraining from all use of illegal drugs, and attending to your own mental health and spiritual needs so that you can work up to your potential as a student and as a professional.
Directory of Programs and Administration

**College of Medicine**
Dean: Carol Bradford, MD
Vice Dean of Education: Daniel Clinchot, MD

**School of Health and Rehabilitation Sciences**
Associate Dean, Director of the School: Deborah S. Larsen, PhD,PT
Director of Research: D. Michele Basso, EdD, PT
Director of Academic Affairs: Marcia Nahikian-Nelms, PhD, RDN, LD, FAND
Director of Diversity and Inclusion: Ajit Chaudhari, PhD, FACSM
Director of Graduate Studies: Amanda Agnew, PhD
Fiscal Officer and Head Administrator: Alice Shi
Assistant to the Director of HRS: Adam Clouser
Assistant to the Director of Academic Affairs: Anya Cohen
Assistant to the Director of Research: Danielle Fernandez
HR Associate: Felisa Dukes
Director of Strategic Communications and Marketing: Lynn Howell
Digital Marketing Coordinator: Michael Hoffer

**Student Services (206 Atwell Hall)**
Director of Student Services: Lisa Terek, MS
Pre-Major Academic Advisor: Samantha Felhaber, MS
Pre-Major Senior Academic Advisor: Breanna Falb, MA
Academic Advisor: Mallory Rusnak, MA
Health Sciences Advisor: George Marshall, M.Ed.
Health Sciences Program Manager: Christie Lukegord, MA
Graduate Program Manager: Ashley McCabe, MS
Admissions Coordinator: Allison Breitfeller
Recruitment Coordinator: TBD
Mental Health Counselor-Undergraduate: Lisa Hayes, MSW, LISW-S
Mental Health Counselor-Graduate: Tyler Rogols, MBA, MA-LPC
IT System Administrator: Bruce Noskowiak

**Divisions and Programs of the School**
Athletic Training (228 Atwell Hall)
   James Onate, PhD, AT, ATC, FNATA, Director
Health Information Management & Systems (543 Atwell Hall)
   Jennifer Garvin, PhD, MBA, RHIA, CTR, CPHQ, CCS, FAHIMA, Director
Health Sciences (306 Atwell Hall)
   Stefan Czerwinski, PhD, Director
Medical Dietetics (243 Atwell Hall)
   Christopher Taylor, PhD, RDN, LD, FAND, Director
Medical Laboratory Science (535 Atwell Hall)
   Tammy Bannerman, PhD(ABMM), Director
Occupational Therapy (406 Atwell Hall)
   Amy Darragh, PhD, OTR/L, FAOTA, Director
Physical Therapy (516 Atwell Hall)
   John Buford, PT, PhD, Director
Radiologic Sciences & Therapy (340 Atwell Hall)
   Kevin D. Evans, PhD, RT, (R) (M) (BD), RDMS, RVS, FSDMS, FAIUM, Director
Respiratory Therapy (431 Atwell Hall)
   Georgianna Sergakis, PhD, RRT, RCP, FAARC, Program Director
Academic Review Process

PRE-REVIEW ASSESSMENT

The academic policies outlined below describe the necessary steps when reviewing students for concerns about knowledge, skills, attitudes and/or behavior brought forward by anyone associated with the HRS, including faculty, staff, students, and clinical preceptors or instructors. A formal review is preceded by data-gathering and fact-finding performed by the academic program, to assure that there is sufficient information to refer the student for formal review.

Academic reviews are typically triggered by grades or clinical/laboratory evaluations that do not meet stated academic requirements for each academic program. The student will receive performance feedback, and data regarding the standards or course requirements in question.

Students who have failed to meet competency expectations within a professional program may be required, as a condition of continued participation in the curriculum, to comply with academic or behavioral requirements that differ from those applied to the student without a history of academic and/or behavioral difficulties.

Students who have failed to meet professional behavior expectations may additionally be addressed through the academic review process.

Egregious behavior (actions that put patients, students, faculty, staff, and/or oneself at personal professional or patient safety risk) may require immediate action by the Director of the School, Vice-Dean for Education or designee. Students in dual degree programs who encounter academic, behavioral, and/or professionalism difficulties in any component of their program must also go through the School of Health and Rehabilitation Sciences formal review process. For these students, the results of the review process may be communicated to the other program(s) as deemed appropriate.

FORMAL REVIEW PROCESSES

There are two categories and four levels of policy violation review. A brief review of each is provided below.

ACADEMIC REQUIREMENT REVIEW: GPA

- If the student fails to maintain the required GPA: (See Policy 3)

  Procedures:
  
  1. Undergraduate Student:
     a. If a term GPA falls below a 2.2, academic warning is issued by the program and HRS Academic Affairs Office.
     b. If a cumulative GPA falls below a 2.2, the student is placed on probation by the program and HRS Academic Affairs Office.
     c. In consultation with the Division or Program Director, a written contract and conditions are set for improvement. The Division or Program Director meets with the student to outline the conditions and written documentation is placed in the student file.
2. **Graduate Student:**
   a. If the cumulative GPA falls below 3.0, probation is issued by the Graduate School.
   b. The HRS Director of Graduate Studies, in consultation with the Division or Program Director or Graduate Advisor, determines a plan for improvement.
   c. The Division, Program Director or Graduate Faculty Advisor meets with the student to outline the conditions and written documentation/contract is placed in the student file.
   d. The student on probation, whose record continues to deteriorate, will be warned that dismissal from the graduate program is if the record does not improve. Special warnings include performance criteria tailored to the individual student, usually in consultation with the HRS Director of Graduate Studies, Division Director, and the Graduate School.
   
   See: [https://gradsch.osu.edu/handbook](https://gradsch.osu.edu/handbook)

**ACADEMIC REQUIREMENT REVIEW: CATEGORY COURSE**

- If a student fails to meet minimum grade expectations in a category 1, 2 or 3 course, the student will be required to retake the course and is placed on probation.

**Procedure:**

1. **Undergraduate and Graduate Student:**
   a. If student receives a grade of E or U in a Category III course, academic warning is issued by the HRS Academic Affairs Office.
   b. If student receives a grade below C- in a Category I or II course, academic probation is issued by the HRS Academic Affairs Office.
   c. In consultation with the Division or Program Director, conditions are set for improvement. The Division or Program Director meets with the student to outline the conditions and written documentation is placed in the student file.
   d. If student receives two or more reasons for warning, probation is issued by the HRS Academic Affairs office, in consultation with Program or Division Director.
   e. The student on probation, whose record continues to deteriorate, will be warned that disenrollment from the program is if the record does not improve.
   f. Certain critical failures during professional student fieldwork experiences may automatically cause the student to receive a failing grade for the fieldwork course, regardless of their performance prior to the incident. Critical failures of this type are typically related to violating patient safety or legal/ethical conduct standards and would warrant immediate removal from a clinical site.
   g. Any challenge to an academic sanction should follow the Student Appeal Process outlined in Policy 20.

- If the student is unable to improve GPA or pass required coursework, the Division/Program Director will recommend program disenrollment. The Director of Academic Affairs will review and make final recommendations to the Director of the School. Final decisions are made by the Director.
PROFESSIONAL, BEHAVIORAL, OR CLINICAL COMPETENCY ISSUES

ACADEMIC ALERT- Level I
Academic Alert-Level 1 Review is intended to assist the student in correcting competency, professional or behavioral patterns that may be disruptive to their success in their professional program. This meeting is used as a learning opportunity to review policies and procedures; clarify expectations; and develop a performance improvement plan with consequences if further violations occur.

- Division, Program Director, Director of Clinical Education, or other designated faculty
- Director of Academic Affairs is notified with copy of performance improvement plan

FORMAL REVIEW: Level II: Disciplinary Review
Level II Review occurs when a knowledge, skills, attitude and/or behavior violation has occurred or there is a violation of the established performance improvement plan from Level 1 review. The Director of Academic Affairs in HRS is notified and provided with supporting information. The Division Director and/or Program Director will place the student on probation and the student will receive a detailed plan that must be achieved to move forward in the professional program within a specified amount of time.

- Division or Program Director, Director of Clinical Education
- Director, Academic Affairs

FORMAL REVIEW: Level III
Level III review occurs when a student fails to meet the conditions and expectations outlined in the student’s probation from Level II review. The Division or Program Director will notify the Director of Academic Affairs with all evidence for student’s failure to meet the conditions and expectations. The Director of Academic Affairs will refer to the Student Academic Success Committee. The Student Academic Success Committee will review all evidence provided by the program as well as a statement provided by the student. This should include a statement of their concern with any accompanying documentation to support their case.

i. Notification to student: The committee must provide notice to the student (to their OSU email account) of the meeting date, time, and location within a reasonable period (typically within seven days). The notification should include the following:

1. A copy of any pertinent policies from the HRS Student Handbook and/or Program Handbooks.
2. Written notice of allegations including time, place and description of the alleged violation.

ii. The student may attend the hearing to respond to allegations, present relevant evidence, and answer questions from the committee.

1. If the student does not attend the hearing or remains silent, the allegations will be reviewed as scheduled and a decision will be made on the basis of the information available to the committee at the time of the meeting.
2. The student’s choice to not attend the hearing or to remain silent shall not be held against them.
iii. The student may have supporters present at the hearing but cannot speak for the student or provide additional information not previously submitted.

1. The student must submit a list of supporting individuals no less than 5 business days before the scheduled hearing to the Director of Academic Affairs via email. The notification should include the individual’s name, relationship to the student and contact information. Supporters may address the committee as well.

2. If this support is from a legal representative, they may advise the student but not address the committee. Notice that a legal representative will attend must be given to the committee as the university’s legal representation will then also be present for the hearing.

The recommendations from this committee meeting is sent from the committee to the Director of Academic Affairs who will communicate the results to the student. The recommendations are additionally sent to the Director of the School who will communicate final decisions to the student. See Level IV.

Level IV: Final Decision Making
Final decision making for a student’s disenrollment or reinstatement resides with the Director of the School of Health and Rehabilitation Sciences. If a student demonstrates behavior determined to be significantly harmful to patients, students, staff, or faculty, the Director may suspend or disenroll a student without using other levels of the review process. The student has the opportunity to appeal at any level of decision using the steps outlined in Policy 20.
School of Health and Rehabilitation Sciences

Applies to: Students in the School of Health and Rehabilitation Sciences Academic Programs

POLICY 1   Academic Standards: Code of Ethics

WHEREAS: Guidelines for acceptable academic, professional and personal behavior for all students enrolled in the School of Health and Rehabilitation Sciences at The Ohio State University will be available to each student, and;

WHEREAS: Preparation of the student on future professional and personal conduct is part of the obligation of the educational process, and;

WHEREAS: The development of proper professional and personal behavior is necessary to perpetuate acceptable professional conduct required of the health professions, and;

WHEREAS: The development and improvement of health care can be fostered through the coordinated efforts of health and rehabilitation sciences professional groups.

Policy Details:
All enrolled students of the School of Health and Rehabilitation Sciences at The Ohio State University will abide by the principles encompassed by description or implication in this Code of Ethics.

1. The human dignity of everyone with whom the student associates will be respected, with primary concern being directed toward the welfare of the person served. In entering the health professions, the student assumes definite responsibilities and commits to the upholding of professional ideals.

2. The student will respect and protect the confidentiality of all privileged information and will voluntarily share such information only when it serves the welfare of the patient or fellow student.

3. The student will rise above all prejudices in their professional behavior.

4. The student will strive to improve and maintain acceptable professional ethics, standards of professional practice, and legal requirements for practice by continued intellectual and professional growth.

5. The student will act with honesty in all endeavors.

6. The student will strive to uphold the dignity and respect the chosen profession by appropriate dress, personal appearance, conduct, and conversation.
7. The student will avoid the indiscriminate or overindulgent use of alcohol, tobacco, prescribed medications, and other similar items that may adversely affect the student's health or ability to function with adequate reason and judgment.

8. The student will uphold personal conduct to avoid endangering self and others, and to avoid interference with the normal procedures of the academic or clinical environment.

9. The student will inform the appropriate authority if they are witness to or participate in improper, illegal, or unethical conduct.

**Procedures:**

*See Academic Review Process: pp 6-9.*

POLICY 2  Academic Standards: Academic Misconduct

All students in the School of Health and Rehabilitation Sciences will uphold the academic integrity of their degree program.

Definitions:

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic Misconduct</td>
<td>Any activity that tends to compromise the academic integrity of the University, or subvert the educational process.</td>
</tr>
<tr>
<td>Cheating</td>
<td>Allowing another party to do one’s work/exam; serving as a substitute for a student in the taking of an exam; possession and/or use of unauthorized study aids/notes during an exam (including cell phones, smart watches, or other such devices); practicing fraud or deceit; knowingly providing or receiving information during examinations with or without the source’s knowledge; and/or sharing information about the content of an exam with a student who has not yet taken the exam.</td>
</tr>
<tr>
<td>Plagiarism</td>
<td>Representing another’s work as one’s own including the unacknowledged word-for-word use and/or paraphrasing of another person’s work, and/or the inappropriate unacknowledged use of another person’s ideas.</td>
</tr>
<tr>
<td>Fabrication</td>
<td>Altering a graded work; falsification of information and resources including laboratory and research results.</td>
</tr>
<tr>
<td>Aid to academic dishonesty</td>
<td>Intentional facilitation of the above dishonorable actions or any other action deemed in violation of this code.</td>
</tr>
</tbody>
</table>

Policy Details:

Students must demonstrate academic honesty and refrain from dishonorable actions that include, but are not limited to the above definitions and any of the behaviors listed below:

1. Violation of course rules;
2. Violation of program regulations;
3. Knowingly providing or receiving information during a course exam or program assignment;
4. Possession and/or use of unauthorized materials during a course exam or program assignment;
5. Knowingly providing or using assistance in the laboratory, in clinical rotation/fieldwork placement or on a course assignment, unless such assistance has been authorized specifically by the course instructor or, where appropriate, a project/research supervisor;
6. Submission of work not performed in a course: This includes (but is not limited to) instances where a student fabricates and/or falsifies data or information for a laboratory experiment (i.e., a "dry lab") or other academic assignment. It also includes instances where a student submits data or information (such as a lab report or term paper) from one course to satisfy the requirements of another course, unless submission of such work is permitted by the instructor of the course or supervisor of the research for which the work is being submitted;
7. Submitting plagiarized work for a course/program/laboratory or clinical assignment
8. Falsification, fabrication, or dishonesty in conducting or reporting clinical or laboratory (research) results which includes work in a class, laboratory, or clinical assignment;
9. Serving as or asking another student to serve as a substitute (a "ringer") while taking an exam;
10. Alteration of grades to change earned credit or a grade;
11. Alteration and/or unauthorized use of university forms or records.

Procedures:
1. Division/Program Level Review:
   If academic misconduct is suspected or alleged, the faculty member, Program Director, and/or Division Director will meet with the student to discuss the details and circumstances of the claim of academic misconduct violation.
   a. No Violation: If the Program/Division Director determines there was no evidence of or intent for an academic conduct violation, this meeting can be used as a learning opportunity to establish steps to avoid academic misconduct.
      i. Undergraduate Students: Documentation of the meeting and its findings are sent to the Director of Academic Affairs within 7 business days and will be retained.
      ii. Graduate Students: Documentation of the meeting and its findings are sent to the Director of Graduate Studies and Director, Academic Affairs within 7 business days and will be retained.
2. Referral to University Committee on Academic Misconduct (COAM)
   If there is a suspicion of academic misconduct, the Director of Academic Affairs and/or Director of Graduate Studies in HRS is notified and the Faculty, Program Director and/or Division Director will make the referral to University Committee on Academic Misconduct (COAM) within 7 days of original meeting with student. This referral is made using the university reporting system for Academic Misconduct. Steps for this referral are located: [https://oaa.osu.edu/coam.html](https://oaa.osu.edu/coam.html)
   The student is notified via OSU email account within 7 days in writing that a referral to COAM has been made.
   a. If the allegations of academic misconduct are not resolved, the student’s final grade in the course will be reported as an “I” (incomplete).
   b. When allegations of academic misconduct are resolved by COAM, information from COAM will provide specific guidance for both student and faculty.
c. If the student is cleared of academic misconduct, the faculty and student should meet to clarify and required steps to meet academic requirements within the course or academic program.

<tr>
<td>Failure to progress (Graduate student)</td>
<td>Warning from the Graduate School that a student has not met the academic guidelines for the graduate school.</td>
</tr>
<tr>
<td>Poor Performance (Graduate student)</td>
<td>Warning from the Graduate School when a student who has earned &lt;9 credit hours and has a GPA&lt; 3.0</td>
</tr>
<tr>
<td>Probation (Graduate student)</td>
<td>A student whose graduate CPHR falls below 3.0 after nine graduate credit hours have been attempted is placed on probation by the Dean of the Graduate School.</td>
</tr>
</tbody>
</table>
University Dismissal (Graduate student)  
A student who is on probation and who does not raise the graduate CPHR to 3.0 or better at the end of the next semester or summer term of enrollment in the Graduate School may be dismissed from the university at the discretion of the Graduate School following consultation with the student’s Graduate Studies Committee chair. At the end of two consecutive semesters or terms on probation, the student is automatically dismissed from the university unless good standing is achieved. If there are extenuating circumstances, the Graduate Studies Committee may petition the Graduate School for an exception to this policy.

Doctoral Students. A doctoral student who has had two unsatisfactory attempts at the candidacy examination or the final oral examination or professional doctoral examination is automatically dismissed from the Graduate School.

Policy Details:
1. The Ohio State University requires maintenance of a GPA ≥ 2.0. See: https://registrar.osu.edu/

2. The Ohio State University Graduate School requires maintenance of a GPA ≥ 3.0 for all graduate students. See: https://gradsch.osu.edu/handbook

3. The School of Health and Rehabilitation Sciences requires GPA ≥ 2.5 for admission to the School and maintenance of a GPA ≥ 2.2 for all undergraduate students.

4. Individual Programs within the HRS may have other specific GPA and course requirements: Please see individual program handbooks for these details.

Submitted by: School of Health and Rehabilitation Sciences
Approved by: HRS Executive Committee
POLICY 5  Academic Standards: Conduct in the Classroom and Academic Environment

Environment:
Students will always adhere to the code of student conduct for The Ohio State University. Students in the School of HRS have additional professional requirements for behavior due to the nature of their professional training and the environments in which learning may occur. The academic environment includes classroom, laboratory and the clinic. (Also see Policy 11)

<tbody>
<tr>
<td>Code of Student Conduct at The Ohio State University</td>
<td>The code of student conduct, a part of the Ohio Administrative Code, is established to foster and protect the core missions of the university; to foster the scholarly and civic development of the university’s students in a safe and secure learning environment, and to protect the people, properties and processes that support the university and its missions. The core missions of the university are research, teaching and learning, and service. Preservation of academic freedom and free and open exchange of ideas and opinions for all members of the university are central to these missions.</td>
</tr>
</tbody>
</table>

Policy Details:
1. Be on time for all assigned educational learning activities within all environments (laboratory, clinic, research sites or class).
2. Attend and actively participate in every required class.
3. Refrain from disruptive or distracting behavior that interferes with the care of research subjects, clients or other students in the educational environments and/or the learning of peers and other professionals within the professional setting.
4. Dress and maintain personal hygiene in a manner consistent with your status as a professional student, as detailed by the Policy #12 Academic Standards: Professional Dress.
5. In general, cell phones and other types of communication devices should be silenced and stored out of sight in the academic environment unless approved by faculty. When permitted by the faculty, such electronic devices may be used for taking notes, accessing online materials related to the course, or responding to in-class quizzes or surveys at the direction of the instructor.
6. If a student is expecting a critical phone call or message and needs to attend to the device during class, the instructor should be informed ahead of time.
7. Take no record of activities using photography, audio, or video recording unless specifically authorized by the faculty and/or administration. See Policy #6 Academic Standards: Social
Networking.
8. Preserve confidentiality of patients in accordance with HIPAA and research guidelines when discussing or writing about actual clinical or research cases/data for course assignments. This will require approval from faculty, laboratory or clinical site administration. See Policy #13 Academic Standards for Clinical Practice: HIPAA Compliance.
9. Communicate in an appropriate and respectful manner with fellow students, faculty, clinical instructors/preceptors, visitors, and staff.
10. Any HRS instructor has authority as an institutional official for The Ohio State University to exercise control over the learning environment in the classroom or at any learning site on or off campus. This includes removing a student from class or research lab if, in the judgment of the instructor, the student’s behavior is inappropriate and is interfering with the learning environment.
11. The instructor is free to exercise reasonable judgment to maintain the integrity, safety, and effectiveness of the learning environment. Students who refuse to comply with direct instructions to leave the class by an instructor are in violation of the code of student conduct for the University and may be removed from class by campus police and subject to further disciplinary action.

</thead>
<tbody>
<tr>
<td>Social Networking</td>
<td>The use of various sites to connect people via web-based technology. This includes but is not limited to Facebook, Flickr, GroupMe, LinkedIn, Twitter, Instagram, TikTok, Vine, Snapchat, web blogs (includes academic portfolios), or chat rooms.</td>
</tr>
<tr>
<td>Publically Disseminate</td>
<td>To distribute to a wide audience, either through posting to a website, sending content in an email, posting flyers, etc.</td>
</tr>
</tbody>
</table>

Policy Details:

Social networking is a common activity that has the potential to increase our ability to interact with each other in positive ways. However, the ability of the internet to instantly reach millions of people, both within and outside of the healthcare profession makes it imperative that we take safeguards to ensure that social networking does not erode the values of the healthcare profession or damage the reputation of the profession, the School, College of Medicine, Medical Center or University.

Procedures:

1. Each student enrolled in a HRS academic program is required to set appropriate privacy settings for all social networking sites to prevent public dissemination of material related to HRS, College of Medicine, The Ohio State University, any clinical site or any information that is prohibited.
2. If the student comments on anything related to activities in the school, the student will include a disclaimer with postings that clearly states that the expressed opinions belong to the writer alone and do not necessarily reflect the views of the School, College, Medical Center, or the University.
3. The student will not write about patients (including pictures of procedures or components of medical care) in any manner that allows for patient identification even if the patient’s names or medical record numbers are removed. This is a violation of the HIPAA privacy act. (See Policy #13).
4. The student will not write defamatory comments about faculty, staff, students, and health professionals within the School, Medical Center, and the University, or about any internship or clinical training site.
5. The student will not post someone else’s work (including from internet sites) without attribution.
6. The student will not post pictures or descriptions that demonstrate students, faculty, or staff engaging in behavior that is unprofessional or sensitive in nature.
7. The student will not post any academic materials, either in total or even in small parts that are
available only to students in the program. This includes examinations, questions from class, exams, or quizzes, recordings of lectures or other course content, PowerPoints, or any written course materials.

8. Students should avoid personal relationships (e.g., friending on Facebook) with faculty, staff preceptors in HRS and patients through social networking until after their degree is awarded and there is no longer a power differential or supervisory relationship. Relationships between students, faculty, and staff in social networking communities limited to professional work, such as LINKEDIN, are acceptable. See OSU Policy 1.15.

**History:**
Issued: 2006
Revised: August 2021
Submitted by: School of Health and Rehabilitation Sciences
Approved by: HRS Executive Committee
POLICY 7  Academic Standards: International Student VISA Requirements

Professional programs (excluding the UG Health Science program) in the School of Health and Rehabilitation Sciences require the student to meet the accreditation requirements for clinical practice outlined by the professional accrediting agency and the program's subsequent approved curriculum. This will require all students to work in a variety of clinical settings with requirements ranging from 2-40 hours per week. An international student studying in the United States on a F1 visa must complete an application using the CPT authorization to meet legal immigration requirements. This authorization allows for this clinical coursework outside of the classroom.

| Definitions: |
|---|---|
| **Term** | **Definition** |
| F1Visa | Non-immigrant Visa for those wishing to study in the U.S. An international student must complete a **F1 Visa application** if entering the US to attend a university or college, high school, private elementary school, seminary, conservatory, language training program, or other academic institution. |
| CPT- Curricular Practical Training | Curricular practical training, or CPT, is a type of off-campus work authorization for F-1 students during their academic program (prior to graduation). CPT is defined in the federal regulations to be "alternative work/study, internship, cooperative education or any other type of required internship or practicum that is offered by sponsoring employers through cooperative agreements with the school. CPT is an integral part of an established curriculum." |
| CPT Authorization | **Curricular Practical Training (CPT)** is a temporary employment authorization for **F-1 visa** non-immigrant foreign students in the United States while enrolled in a college-level degree program. |
| Part-time CPT | Employment for 20 hours or less per week is considered part-time. An international student must be enrolled in classes full-time to maintain lawful F-1 status. |
| Fulltime CPT | Employment for more than 20 hours per week is considered full-time. Please be aware that 12 months or more of full-time CPT will invalidate your eligibility for **Optional Practical Training (OPT)**. During the academic year (fall and spring semesters), the student must be simultaneously enrolled full-time to maintain lawful F-1 status. |
Policy Details:
To be eligible to apply for CPT, students must:
1. Currently be in F-1 status
2. Have been enrolled in a full course of study for at least one academic year (exceptions may be made for students in graduate programs requiring off-campus work during the first year of study).
3. Plan to be enrolled through the duration of the CPT.
4. Have an off-campus job offer, such as an internship (this would be the clinical rotation for your professional program).

Procedures:
1. Complete all steps of the CPT application found here:
   https://oia.osu.edu/immigration-information/employment/curricular-practical-training.html
2. The student will request letter from Program or Division Director outlining the academic requirements for clinical coursework for your professional program. Submit this letter with your application to your immigration coordinator in the Office of International Affairs.

Submitted by: School of Health and Rehabilitation Sciences

Approved by: HRS Executive Committee
POLICY 9  Academic Standards: Religious Observation

Policy Details:
1. The School policy on religious observations holds that every reasonable effort is made to help students avoid negative academic consequences when religious obligations conflict with academic course/clinical requirements.
2. Although the School makes every effort to accommodate participation in religious holidays and other religious observations, professional students should recognize that the requirements of patient care and required clinical education are significantly different from standard classroom education and may require alternative arrangements.

Procedures:
1. Any student who is unable to attend class/clinical or participate in any academic requirement due to religious beliefs will be provided an opportunity to make up the assignment, clinical competency or examination or be given a reasonable alternative opportunity to complete their academic requirements without penalty.
2. This may not apply to a situation where it can be demonstrated that such an accommodation would fundamentally change the essential nature of the element of the curriculum, interfere with the delivery of the course/clinical, or create an unreasonable burden upon the program.
3. Students who anticipate absences from scheduled required educational activities must notify the Division/Program Director at least four weeks in advance of the anticipated absence to request accommodations.
4. When a Division Director/Program Director reports that accommodations for a religious observation cannot be made and that this would result in negative academic consequences for the student, the student can appeal to HRS Academic Affairs. Any further appeal can be made to Director of the School for further consideration. See Policy # 20

Approved by: HRS Executive Committee
POLICY 10   Academic Standard: Discrimination, Harassment, or Sexual Misconduct

The Ohio State University and the School of Health and Rehabilitation Sciences in the College of Medicine are committed to building and maintaining a diverse community to reflect human diversity and improve opportunities for all. The university is committed to equal opportunity, affirmative action, and eliminating harassment and discrimination. Ohio State will not tolerate retaliation in any form. The university is also committed to providing the best experience possible for minors while entrusted to our care. These commitments are both a moral imperative consistent with an intellectual community that celebrates individual differences and diversity, as well as a matter of law.

Ohio State does not discriminate based on age, ancestry, color, disability, gender identity or expression, genetic information, HIV/AIDS status, military status, national origin, race, religion, sex, gender, sexual orientation, pregnancy, protected veteran status, or any other bases under the law, in its activities, academic programs, admission, and employment.

Current information is available through the OSU Office of Institutional Equity, https://equity.osu.edu/. The Office of Institutional Equity exists to help the Ohio State community prevent and respond to all forms of harassment, discrimination, and sexual misconduct. This centralized office houses the university’s Americans with Disabilities Act (ADA), Affirmative Action and Equal Employment Opportunity (EEO), Protection of Minors, and Title IX functions. The Office of Institutional Equity also coordinates the university’s response to all complaints of harassment and discrimination based on age, ancestry, color, disability, gender identity or expression, genetic information, HIV/AIDS status, military status, national origin, race, religion, sex, gender, sexual orientation, pregnancy, protected veteran status, or any other bases under the law. This office focuses on the following areas:

- ADA Accessibility
- Affirmative Action and Equal Employment Opportunity
- Protection of Minors
- Title IX

The School of Health and Rehabilitation Sciences complies with the University Policies and standards set by the university. All policies and standards can be found: https://equity.osu.edu/policies-and-standards
Procedures:

Reporting Allegations of Discrimination, Harassment or Sexual Misconduct

1. Reports/complaints of alleged discrimination, harassment or sexual misconduct can be made by any individual who is directly involved in, who observes, or who believes that these actions may have occurred. This includes allegations by third parties against any individual covered by this policy.

2. Making a report/filing a complaint with the university does not preclude the individual from filing a report with an external law enforcement or other agency nor does it extend time limits with those agencies. Individuals may request assistance from the Office of Institutional Equity to notify such authorities.

3. All members of the university community can make reports/file complaints as outlined below. Faculty and Staff are designated as mandatory reporters.

4. OSU HRS students may report incidents of harassment, discrimination, or sexual misconduct to any of the following individuals who will provide immediate support and help the student to make connections with the Office of Institutional Equity, resources, and investigative bodies:
   - Individual Program Director
   - Dr. Marcia Nahikian-Nelms, Director of Academic Affairs (Marcia.nahikian-nelms@osumc.edu)
   - Dr. Ajit Chaudhari, Director of Diversity and Inclusion (ajit.chaudhari@osumc.edu)
   - Dr. Deborah Larsen, Director of the School (adam.clouser@osumc.edu)
   - HRS mental health counselors – Lisa Hayes, MSW, LISW-S or Tyler Rogols, MBA, MA, LPCC-hrs counseling@osumc.edu

History:

Issued: May 2017
Revised: August 2021
Submitted by: School of Health and Rehabilitation Sciences
Approved by: HRS Executive Committee
Professionalism

The public expects that those in the health care professions to adhere to a set of values that reflect their commitment to excellence, responsibility, respect for all, integrity, prudence, and trustworthiness. The College of Medicine and the School of Health and Rehabilitation Sciences considers any student enrolled in for the purpose of seeking the professional degree to be always an active member of the profession. Commitment to integrity in espousing the values of the profession means that members of the profession behave in ways that will reflect positively on the profession even when they are not in class or on the grounds of the university or medical center. Students who behave in a manner counter to the values of their health care profession may be subject to adverse actions from the School of Health and Rehabilitation Sciences, up to and including dismissal.

Unprofessional behavior includes but is not limited to:

1. Breaches in patient confidentiality.
2. Public intoxication or substance abuse, including use of alcohol or drugs especially while wearing HRS attire (scrubs or white coats).
3. Distribution of material that includes disparaging comments about populations of people.
4. Lack of self-control in encounters with patients, faculty, staff, and other health professionals.
5. Criminal activity.
6. Interpersonal violence.
7. Distribution of defamatory or vulgar comments about any individual or institution including the faculty of The Ohio State University, employees of the Wexner Medical Center at The Ohio State University Medical Center or any of the following entities: The Ohio State University, the Wexner Medical Center at The Ohio State University or The Ohio State University College of Medicine.
8. Invasion of another’s privacy by any means.
9. Misrepresentation of credentials, abilities, or position.
STUDENT PROFESSIONAL HONOR CODE

HRS students will behave in a manner consistent with the following principles of professionalism in order to foster and maintain a culture that facilitates these attributes and behaviors:

• ALTRUISM
  • Assist other HRS students in need;
  • Contribute to a positive image of the healthcare profession;
  • Serve the interests and welfare of the patient and the community above our own self-interest.

• HONESTY AND INTEGRITY
  • Respect the rights of patients, faculty, staff, colleagues, and other health professionals;
  • Safeguard patient confidences and privacy within the constraints of the law;
  • Deal with confidential information appropriately and discreetly;
  • Understand the general principles of ethical behavior and their application to performance expectations of any course of study, examination, or other evaluations.

• CARING AND COMPASSION
  • Treat each client as an individual with respect, empathy, and dignity both in the family’s presence and in discussions with other members of the health care team;
  • Handle issues of sickness, dying, and death in a professional manner with patients and their families;
  • Refrain from abusing authority.

• SERVICE
  • Participate in and contribute to the betterment of the public health community in a productive manner;
  • Participate in and contribute to peer groups, local, national and/or international organizations.

• EXCELLENCE AND SCHOLARSHIP
  • Recognize one’s own deficiencies and endeavor to correct them, requesting help when needed;
  • Strive to improve one’s self in the integration and transmission of knowledge;
  • Collaborate with and assist peers, colleagues, and other health professionals appropriately for the advancement of scientific knowledge and skills;
  • Commit to self-directed and life-long learning.

• RESPECT FOR PERSONS
  • Demonstrate respect for Faculty, Instructors, Staff, Peers, Patients, and Families
  • Treat those with whom they work with respect, trust, and dignity;
  • Refrain from engaging in unwanted/inappropriate romantic and sexual behaviors or any other unprofessional behaviors;
  • Respect rights such as privacy, confidentiality, and informed consent;
  • Communicate in a sensitive manner and do not discriminate based on age, gender, intelligence, medical condition, nationality, or ethnic origin, physical or mental disability, race, religion, sexual orientation, or socioeconomic status.
• RESPONSIBILITY AND ACCOUNTABILITY
  • Maintain academic, patient care and service as our highest priority;
  • Be accountable for deadlines and complete assignments/responsibilities in a timely fashion;
  • Consistently be on time, attentive, and prepared for class, clinical experiences, and other program activities;
  • Recognize and report peers’ errors, fraud, poor behavior, deficiency in character, and incompetence;
  • Identify one’s own limitations and developmental needs, and seek approaches for improvement;
  • Present oneself in a professional manner with respect to dress, hygiene, body language, composure, and gestures.
  • Maintain your personal health and wellness. This includes seeking appropriate medical care to keep yourself fit to practice, refraining from excessive use of alcohol, refraining from all use of illegal drugs, and attending to your own mental health and spiritual needs so that you can work up to your potential as a student and as a professional.
School of Health and Rehabilitation Sciences

Applies to: Students in the School of Health and Rehabilitation Sciences Academic Programs

POLICY 11   Academic Standards: Conduct in the Professional Environment

Environment:
Students will always adhere to the code of student conduct for The Ohio State University. Students in the School of HRS have additional professional requirements for behavior due to the nature of their professional training and the environments in which learning may occur.

Definitions:

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Code of Student Conduct at The Ohio State University</td>
<td>The code of student conduct, a part of the Ohio Administrative Code, is established to foster and protect the core missions of the university; to foster the scholarly and civic development of the university’s students in a safe and secure learning environment, and to protect the people, properties and processes that support the university and its missions. The core missions of the university are research, teaching and learning, and service. Preservation of academic freedom and free and open exchange of ideas and opinions for all members of the university are central to these missions.</td>
</tr>
</tbody>
</table>

Policy Details:
1. Be on time for all assigned clinical learning activities.
2. Attend and actively participate in every required learning activity.
3. Refrain from disruptive or distracting behavior that interferes with the care of clients or patients in the clinical environment and/or the learning of peers and other professionals within the professional setting.
4. Dress and maintain personal hygiene in a manner consistent with your status as a professional student, as detailed by the Policy #12 Academic Standards: Professional Dress.
5. Keep cell phones and other types of communication devices silenced and stored out of sight during the assigned time within the clinical environment unless approved by clinical preceptor.
   a. If a student is expecting a critical phone call or message and needs to attend to the device during the scheduled clinical period, the instructor/preceptor should be informed ahead of time.
6. Take no record of activities using photography, audio, or video recording unless specifically authorized by the clinical instructor or clinical site administration. See Policy #6 Academic Standards: Social Networking.
7. Preserve confidentiality of the patients in accordance with HIPAA guidelines when discussing or writing about actual clinical cases for course assignments. See Policy #13 Academic Standards for
Clinical Practice: HIPPA Compliance.

8. Communicate in an appropriate and respectful manner with fellow students, faculty, clinical instructors/preceptors, visitors, and staff.

9. Any HRS instructor has authority as an institutional official for The Ohio State University to exercise control over the learning environment at any learning site on or off campus. This includes removing a student from clinicals if, in the judgment of the instructor, the student’s behavior is inappropriate and is interfering with the learning environment.

10. The clinical instructor, in communication/collaboration with the course instructor, is to exercise reasonable judgment to maintain the integrity, safety, and effectiveness of the learning environment. Students who refuse to comply with direct instructions to leave the clinical site by an instructor are in violation of the code of student conduct for the University and may be removed from clinicals by campus police or local authorities and subject to further disciplinary action.

POLICY 12 Academic Standards: Professional Dress

To respect the values of patients, professionals, and peers, as well as workplace safety and functionality requirements, clothes worn by students in the school should always conform to general standards for professionalism.

In some learning environments, specific clothing may be required by the program. Examples include but are not limited to fitness attire for exercising or to practice examination and treatment skills on classmates, scrubs and or lab coats for working in the clinic, program shirts with specific logos for certain activities, footwear for specific settings, or semiformal dress for special occasions. Some clinical environments do not allow for any accommodations and requirements cannot be altered due to patient safety. See individual program handbooks for specific requirements. For some religious or cultural customs, these requirements may be altered with consultation of faculty and supervisors.

Definitions:

</thead>
<tbody>
<tr>
<td>Business</td>
<td>Business casual dress typically includes slacks or khakis, dress shirt or blouse, open-collared or polo shirt, optional tie or seasonal sport coat, a dress or skirt at knee-length or below, a tailored blazer, knit shirt or sweater, and loafers or dress shoes that cover all or most of the foot.</td>
</tr>
</tbody>
</table>

Policy Details:

Expectations for all students in the school are as follows.

1. Follow any specific program guidelines.
2. Business casual dress is recommended for many professional environments but in general, the appropriate dress is determined by the clinical or educational environment.
3. Clothing should be clean, fit appropriately, and should not be overly revealing.
4. Clothing messaging should be appropriate for the environment and should not interfere with the learning or clinical activities. This includes patches, buttons, or any attachments to clothing.
5. Clothing that is intended only for the clinic should not be worn to class. Clothing soiled from work in the clinic may never be worn back to class; the student must bring a clean change of clothes.
6. Lab coats should be clean, wrinkle-free, and in good repair.
7. IDs should be displayed in a visible location above the waist.
8. Appropriate undergarments should be always worn.
9. Hats are not to be worn unless they are required parts of a uniform.
10. Shoes and socks are required in clinical settings. Sandals are not appropriate; the foot should be covered according to Occupational Safety and Health Administration (OSHA guidelines).

11. Jewelry should be appropriate for the environment, should not create a safety hazard for the wearer or anyone else and should not interfere with learning or clinical activities.

12. Students should be aware that some internships and clinical sites may have policies limiting tattoos and piercings. These may need to be covered and/or removed.

13. Smoking, the use of any tobacco products, or vaping is not permitted in any buildings or on the grounds of the Ohio State campus. The student cannot smoke, use other tobacco products, or vape at any clinical site.

14. To avoid transmission of pathogens, eating is not permitted in any patient care area. Students are not allowed to eat while practicing clinical skills during lab. Hands must be washed before and after eating for clinical work or clinical skills practice.

15. Body cleanliness is important in all academic and clinical settings. Improper personal hygiene may result in academic action. Use of deodorant is recommended. Perfumes, colognes, and aftershave lotions may be used in moderation. Some settings may prohibit these based on specific patient needs.

16. Hair should be kept clean and well-groomed or styled; extreme styles may be unacceptable and specific styles may be prohibited by clinical sites. Long hair should be tied back to avoid interference with patient care activities.

17. Fingernails should be kept clean and manicured and kept less than ¼ inch long past the tip of the finger. Artificial nails are prohibited due to their potential to harbor bacteria. Nail polish is typically prohibited in situations requiring aseptic care.

18. Pants must fit at or above the waist and must not reveal underwear or the skin below the waist.

19. Shorts are acceptable in some settings but should extend to the mid-thigh or below.

20. Shirts must either be tucked in or come below the level of the pants so that will not ride up when bending over or reaching overhead.

21. Skirt length shall be no shorter than three inches above the top of the knee; Split skirts and dress shorts are permitted, if they fall within skirt guidelines.

22. Facial make-up should be applied in moderation.

23. Note: For some religious or cultural customs, these requirements may be altered with consultation of faculty and supervisors. Some clinical environments do not allow for any accommodations and requirements cannot be altered due to patient safety.

POLICY 14  Academic Standards for Clinical Practice: Background Check

Students in all HRS programs (except Health Sciences undergraduate majors, and in some cases, MS and PhD) are required to complete a criminal background check annually. A student must successfully pass a criminal background check to receive/maintain an OSU Wexner Medical Center identification badge and to meet the requirements of external affiliated healthcare institutions.

The HRS assigned staff in Student Services arrange all background checks so that the process is completed and a record is maintained in the student’s record in Student Services.

<table>

<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Background Check</td>
<td>The act of reviewing both confidential and public information to investigate a person or entity’s history. Background checks are commonly performed by employers to ensure that: an employee is who they say they are; to determine that the individual does not have a damaging history that would negate participating in the health care environment, and; to confirm information than an applicant has included on their application for admission to the educational program.</td>
</tr>
</tbody>
</table>

Policy Details:

1. Successfully clearing a background check is required to participate in the clinical education component within any professional program.

2. Current graduate associates, students and student employees must disclose criminal convictions within three business days of the conviction.

3. Students with a criminal record may be denied participation in clinical study based on institutional regulations, which would prevent progressing through the program, and thus may not be eligible for licensure by the state licensure boards. Students may be disenrolled from the program.

4. Students who know they will not successfully pass a criminal background check should contact the program’s director before professional coursework begins.
5. Background checks are only valid for one year after their clearance date and therefore, students will have to complete a background check during each year of the program.

POLICY 17  Academic Standards for Clinical Practice: Drug Testing

HRS academic programs prohibit any enrolled HRS student from engaging in any substance abuse. The School of Health and Rehabilitation Sciences appropriately establishes substance abuse guidelines and procedures that are consistent for all other employees of health care facilities in which HRS students conduct their clinical practice. The School of HRS recognizes that prompt treatment is essential for successful rehabilitation and recovery for students with substance abuse. Students are encouraged to request referral for treatment before their substance abuse leads to academic or disciplinary problems. The College of Medicine (COM) and the School of Health and Rehabilitation Sciences (HRS) is committed to the health and wellbeing of patients and of its students. As part of this commitment, The COM and HRS complies with and upholds all federal, state, and local laws that regulate or prohibit the possession, use, or distribution of alcohol or illicit drugs. Students who are impaired by substance abuse endanger patients, themselves, faculty and staff, and other students. Substance abuse shall be defined as: 1) The use or possession of any drug in a manner prohibited by law; and 2) The use of alcohol or any legal drug or other substance in such a way that the user’s performance as a professional student is impaired.

<td>The use or possession of any drug prohibited by law; and The use of alcohol, any legal drug, or other substance in such a way that the user’s performance as a professional student is impaired during any educational event including clinical practice or classroom session.</td>
</tr>
</tbody>
</table>

Policy Details:

1. All students enrolled in HRS academic programs (except undergraduate Health Science students) are required to submit to a urine toxicology screening at the beginning of each academic year. The student is responsible for the cost of this screening.
2. At any time during enrollment in a HRS professional education program, if a faculty member, Program Director, Division Director or preceptor suspect substance abuse, the student can be required to repeat a urine toxicology drug test on a “just cause” basis immediately.
### Procedures-Annual Drug Testing:

1. Each professional academic program in HRS will establish the deadline for documentation of urine toxicology screen at the beginning of each academic year. The OSU WILCE student health center provides urine toxicology screening during regular office hours. Any accredited health provider is additionally able to conduct the screening. The 14 panel drug screen checks for the following: Marijuana (THC, cannabinoids); Cocaine; Amphetamines (methamphetamines); Expanded amphetamines-MDMA/6AM (Ecstasy, molly); Basic opiates: heroin, morphine, codeine); Expanded opiates: oxycodone, oxymorphone, hydrocodone, hydromorphone); Phencyclidine (PCP-angel dust); barbiturates; Methadone; Propoxyphene; Methaqualone (Quaaludes); Demerol; Tramadol.

2. Results must be sent to the student’s BUCKMD account so that individual academic programs can access the results and verify completion.

3. An initial positive screening test is followed by an additional test within 24 hours.

4. The student, who has had a positive test, is removed from any clinical placement and will be unable to participate in any clinical rotation until results are verified or that a negative test is obtained.

5. Students found to have violated expectations for this policy may be required to complete additional learning and assessment activities, determined by the program director, Division Director to ensure that they understand and can uphold the standards of professional work as a condition for their continued enrollment in the program.

6. Steps to repeat urine toxicology are established by the division and the student will remain on probation throughout their educational program.

7. Refusal of drug test, not attending a required drug testing appointment, providing a fabricated sample, or adulterating the sample is treated as a confirmation of drug/alcohol use.

8. If the faculty determines that the violation falls under the university Code of Conduct jurisdiction, a complaint is filed to the university office of student conduct.

### Procedures-“Just Cause”Drug Testing:

1. Any professional academic program in HRS may request a random urine toxicology screen if there is evidence of substance abuse within the clinical environment, The OSU WILCE student health center provides urine toxicology screening during regular office hours. Any accredited health provider is additionally able to conduct the screening. The 14 panel drug screen checks for the following: Marijuana (THC, cannabinoids); Cocaine; Amphetamines (methamphetamines); Expanded amphetamines-MDMA/6AM (Ecstasy, molly); Basic opiates: heroin, morphine, codeine); Expanded opiates: oxycodone, oxymorphone, hydrocodone, hydromorphone); Phencyclidine (PCP-angel dust); barbiturates; Methadone; Propoxyphene; Methaqualone (Quaaludes); Demerol; Tramadol. If alcohol abuse is suspected while at a clinical site, a blood alcohol level can be requested by the program as “just cause” and can be obtained from Student Health.

2. Results are sent to the student’s BUCKMD account so that individual academic programs can access the results and verify completion.

3. An initial positive screening test is followed by an additional test within 24 hours.

4. The student, who has had a positive test, is removed from any clinical placement and will be unable to participate in any clinical rotation until results are verified or that a negative test is obtained.

5. Students found to have violated expectations for this policy may be required to complete additional learning and assessment activities, determined by the program director, Division Director to ensure that they understand and can uphold the standards of professional work as a condition for their continued enrollment in the program.

6. Steps to repeat urine toxicology or blood alcohol testing are established by the division/program and the student will remain on probation throughout their educational program.
7. Refusal of drug test, not attending a required drug testing appointment, providing a fabricated sample, or adulterating the sample is treated as a confirmation of drug/alcohol use.

8. If the faculty determines that the violation falls under the university Code of Conduct jurisdiction, a complaint is filed to the university office of student conduct.

POLICY 18  Academic Standards: Student Change in Health Status

Acute or chronic changes in health status that prevent a student from performing required responsibilities during the academic program need to alert the appropriate Program or Division Director.

Policy Details:
Enrollment of students with acute or chronic changes in health status requires careful planning of coursework and clinical rotations to protect the health of the student and/or patients/clients that the student may encounter.

Procedures:
1. Injuries that occur in the academic setting/classroom: If necessary, emergency medical attention is sought. Emergencies requiring paramedic attention or ambulance transportation should be dealt with by calling “911.” The Columbus Emergency Squad Service will respond.

2. Academic Affairs, faculty, Program Director or Division Director should be notified immediately.

3. If you sustain an injury in Atwell Hall, please contact staff in Administration (Room 106 Atwell) for an incident report. Emergencies requiring paramedic attention or ambulance transportation should be dealt with by calling “911.” The Columbus Emergency Squad Service will respond. The faculty or Program/Division Director will complete this form and return to HRS Fiscal Officer.

4. Injuries that occur in the clinical setting:
   a. Follow clinic procedures for the agency they are assigned.
   b. Inform Program Director or Director, Clinical Education for your program.
   c. All injuries in a Health Care setting such as hospitals and clinics are documented with an incident report available at each health care facility. If the injuries are significant, students should seek medical attention from the emergency department of the clinical site or at Ohio State’s Student Health. If you sustain an injury in Atwell, please contact Administrative Staff (Room 106 Atwell) for an incident report. Emergencies requiring paramedic attention or ambulance transportation: Call “911.” The Columbus Emergency Squad Service will respond.
   d. Caring for Patients with Infectious Diseases: Human Immunodeficiency Virus (HIV), Hepatitis C Virus (HCV) and Hepatitis B (HBV) are serious health problems in the United States. In regards to patient care, professional students may not refuse to assist in the treatment of a patient solely because the patient is infected with HIV, BV, HCV or other infectious disease.
e. If the student is exposed to or contracts an infectious disease, students should notify the clinical facility, their preceptor, Director of Clinical Education and/or Program/Division Director. The student will follow the guidelines for treatment outlined by the facility, OSU Student Health or their personal health care provider.

5. Student Change in Health Status:
   a. In some programs, a change in health status may require careful planning of academic and clinical experiences. Although voluntary, it is recommended that changes in medical status be reported to Director of Clinical Education for the student’s individual professional program, Program or Division Director. A face-to-face meeting is scheduled with the student where guidance and academic plans will be established.

   b. If a student withdraws from a program and is in good academic standing, they will be eligible for returning from the leave of absence following the conclusion of the health condition and with health clearance from health care provider. The curriculum of many programs may require the student to take a leave of absence (See Policy # 19) and resume the beginning of the following semester.

POLICY 19  Academic Standards: Leave of Absence

Policy Details:
1. Any HRS student who wishes to withdraw from the School for one or two terms must provide a written request asking for permission from their Division/Program Director.
2. If approved, the student will be placed on a Leave of Absence (LOA) at the discretion of the Division/Program Director.

Procedures:
1. The student requests a meeting with Division/Program Director to discuss the request for leave of absence.
2. The student should consult with Student Services, Student Financial Services Counselor, and Student Advocacy if necessary, regarding the student’s status and any conditions for return.
3. The Division/Program Director, along with the student, will develop the written request that includes the following:
   a. proposed dates for the leave of absence
   b. specific conditions for return
   c. documentation of health concerns, if applicable
4. The letter of LOA is placed in the student’s file in HRS Student Services.
5. The student will request reinstatement one term prior to the intended return date.

POLICY 20  Academic Standards: Student Complaint/Student Appeal

This policy applies to any concern that a student has regarding their academic participation in HRS.

Procedures:
The student must follow each appeal step in sequence:

1. **Grade Appeal:** Contact the instructor of record for grade appeal, in writing, outline the circumstances and rationale for request within 7 business days of the relevant event. This should include a written description of the details describing the reasons you are contesting the grade. This letter should provide information that includes the course number and any specific evidence that supports the student’s appeal. If resolution does not occur, appeal may be made to Division/Program Director.

2. **Other Academic Action Appeals:** Contact the Division/Program Director for any academic action or additional grade appeal, in writing, outlining the circumstances and rationale for request.
   a. **Undergraduate Students:** If resolution does not occur, appeal may be made to Director of Academic Affairs. (See Below)
   b. **Graduate Students:** If resolution does not occur, appeal may be made to Director of Graduate Studies.

3. **Undergraduate Students – Grade Appeal:**
   a. Contact the Director of Academic Affairs for any academic appeal in writing outlining the circumstances and rationale for request.
   b. The Director of Academic Affairs will convene an appeal committee consisting of three faculty from divisions within the school (exclusive of the division from which the student is enrolled) within a reasonable period (typically within 7 business days) of receiving the request for an appeal.
   c. The appeal committee will hold a hearing to review the appeal within a reasonable period of time (usually within 14 business days of receiving the request). The student will be notified of the hearing date, time, and location typically within 4 business days of the request and may submit additional supporting materials of their appeal. Following this hearing, the student will receive information regarding the decision from the appeal committee, usually within 7 days of the meeting.
      o The student may have supporters present at any appeal hearing.
      o The student must submit a list of supporting individuals no less than 2 business days before the scheduled hearing.
      o If this support is from a legal representative, notice must be given to the committee no less than 7 business days prior to the hearing. If a student has legal
representation, the university’s legal representation will be required to be present for the appeal hearing. Legal representation may be present but may only provide consultation and cannot speak for the student.

d. **If resolution does not occur**, appeal may be made to the School Director, who will form a committee of three Division Directors, not involved in the original appeal, who will follow the same procedures of the initial review committee; this ad hoc committee is advisory to the School Director. The School Director will evaluate their recommendation along with all materials and communicate the results of the appeal to the student. If the student is not satisfied with the response from the School Director, the student may seek further review through the Vice Dean of Education in the College of Medicine where College rules for appeal will apply. If the student is not satisfied with the response from the Vice Dean of Education, the student may pursue further appeal based on Rule 3335-7-23.

4. **Graduate Students:**

   a. Contact the Director of Graduate Studies for any appeal in writing outlining the circumstances and rationale for request. The Director of Graduate Studies will refer to the Graduate Studies committee who will convene an appeal committee consisting of three faculty from divisions within the school (exclusive of the division from which the student is enrolled) within a reasonable period (typically within 7 business days) of receiving the request for an appeal.

   b. The appeal committee will hold a hearing to review the appeal within a reasonable period of time (usually within 14 business days of receiving the request). The student will be notified of the hearing date, time, and location typically within 4 business days of the request and may submit additional supporting materials of their appeal. Following this hearing, the student will receive information regarding the decision from the appeal committee, usually within 7 days of the meeting.

   o The student may have supporters present at any appeal hearing.

   o The student must submit a list of supporting individuals no less than 2 business days before the scheduled hearing.

   o If this support is from a legal representative, notice must be given to the committee no less than 7 business days prior to the hearing. If a student has legal representation, the university’s legal representation will be required to be present for the appeal hearing. Legal representation may be present but may only provide consultation and cannot speak for the student.

   c. **If resolution does not occur**, appeal may be made to the School Director, who will form a committee of three Division Directors, not involved in the original appeal, who will follow the same procedures of the initial review committee; this ad hoc committee is advisory to the School Director. The School Director will evaluate their recommendation along with all materials and communicate the results of the appeal to the student. If the student is not satisfied with the response from the School Director, the student may seek further review through the Vice Dean of Education in the College of Medicine where College rules for appeal will apply. If the student is not satisfied with the response from the Vice Dean of Education, the student may pursue further appeal based on Rule 3335-7-23.

History:
- Issued: May 2017
- Revised: August 2021
- Submitted by: School of Health and Rehabilitation Sciences
- Approved by: HRS Executive Committee
HRS Student Resources

BUILDING SAFETY

- Under the Ohio State University and Wexner Medical Center’s non-smoking policy, smoking, vaping or any tobacco use is prohibited in all areas inside and outside Atwell Hall. Smoking cessation programs are offered through the University Office of Human Resources and through Ohio State’s Student Health Services Office.
- Food and drinks are not allowed within laboratories. Students may use the building’s lobby.
- A faculty or senior staff member must be present for all student meetings held in the building before 7:00 a.m., after 5:00 p.m., and on weekends.
- HRS Academic Affairs (206 Atwell) must approve all signs posted in the School. Drafts may be mailed to anya.cohen@osumc.edu for approval.
- Student organizations need to secure permission from the HRS Academic Affairs before scheduling a fundraiser in the building (See Student Resources).
- All maintenance problems within the building should be reported to the Building Coordinator - Adam.clouser@osumc.edu.
- The Atwell Lobby is a wireless network environment where students can read, work wirelessly, and socialize. Students are responsible for replacing tables and chairs that are moved as well as disposing of trash in the provided receptacles.
- Atwell Hall follows university policy for emergencies including fire, tornado, medical emergencies, active shooter, earthquake, bomb threat, and handling of any patients or clients with disabilities. All information is here: https://dps.osu.edu/emergency-procedures

Register to receive Buckeye alerts
If your cell phone number is already in BuckeyeLink, then you are automatically registered for the Buckeye Alert text messaging system. Students can register up to two additional cell phone numbers to receive text message notifications. These additional phone numbers can belong to parents, spouses, or anyone else they wish to include in the text message notifications. In addition, you may also opt-in to receive notifications from multiple Ohio State campuses. More information about alert notices is available at https://dps.osu.edu/alert-notices.

Watch Ohio State’s 'surviving an active shooter' video
The safety of our campus community is our number one priority. While it is scary to think about, we want you to be prepared for an active shooter or armed aggressor situation. Please watch Ohio State’s educational video, “Surviving an Active Shooter,” to learn about the national “Run. Hide. Fight.” best practice. We encourage everyone to report suspicious behavior to OSUPD by calling 614-292-2121 or 911 in emergencies. View: https://dps.osu.edu/active-shooter

RELIGIOUS OBSERVATION POLICY
The School policy on religious observations holds that every reasonable effort should be made to help students avoid negative academic consequences when religious obligations conflict with academic course/clinical requirements. Please see Policy Number # 9 in this handbook for additional details. HRS academic faculty and staff are referred to the Interfaith Calendar Website as a resource of religious holidays: https://www.interfaith-calendar.org/2021.htm
TRANSPORTATION AND TRAFFIC MANAGEMENT

Parking is handled through Campus Parc, 1560 N High St., (614-688-0000). Students can purchase a “C” pass for parking in the “C” designated parking areas. Students may use remote parking at the Buckeye and West Campus Lots and arrive at the medical center complex by shuttle. Contact Transportation and Traffic Management for additional details at http://ttm.osu.edu.

COMMUNICATION AND IDENTIFICATION CONTACT INFORMATION

Address
Students should promptly make changes to address and telephone numbers via their student center, http://buckeyelink.osu.edu/. This information must be accurately maintained not only for University records, but also for the protection and benefit of you the student. The university has on file the following four address types for students:

Permanent address: a student’s address when not enrolled in classes at the university, such as the address of the family home where a student lives during academic breaks. A permanent address is directory information and can be released without a student’s consent.

Home/current address: a student’s local address while they are enrolled in classes at the university.

Residence hall address: maintained by Student Life and matches the address assigned to a student living within the residence halls.

Student physical address: the address where a student is physically located while completing online programs or courses; or while participating in clinicals, internships, field experiences, or independent study courses. Federal and state law require that Ohio State verify the address representing the physical location where students are completing those academic experiences. A student’s physical address could impact Ohio State's authorization to offer the academic experience, or a student’s eligibility to obtain federal financial aid and eligibility to obtain state professional licensure.

Students can update addresses at buckeyelink.osu.edu.

E-mail
Students are required to activate their university email account via https://my.osu.edu/. Students can receive assistance by calling 614-688-HELP. Advisors, Instructors, and the University will only respond to emails and send essential information, such as course materials, grades, and other notifications to your OSU e-mail address. Additionally, the University Registrar’s Office relies on your OSU e-mail as the primary communication medium for all students, so students are required to check their OSU e-mail daily. It is possible to link private e-mail accounts (Hotmail, Gmail, AOL, etc.) to the OSU E-mail account; however, this is not recommended. Some private email accounts will block OSU e-mail addresses. Check with your private e-mail provider for further details. OSU faculty, instructors and advisors require students to use their OSU e-mail exclusively in all communications with them. It is the student’s responsibility to check their email daily. Students assume all responsibility regarding missed official University communications.
Faculty/Staff E-mail
Faculty and staff are happy to respond to student e-mail inquiries. However, please use common
courtesy in e-mail messages. Be brief, polite, and professional. Do not send unsolicited jokes,
advertisements, or political material. Use professional titles and avoid “shorthand” when emailing.
Expect at least a 48-hour turn around for a response. This response time may be longer during the
weeks of University breaks, midterms, finals, and any other times as posted on their out of office email.

Finally, the faculty and staff use distribution lists for each class year to disseminate information
appropriate for the classes. It is the student’s responsibility to check their OSU e-mail regularly to
receive information for School events, announcements, and policy changes. Finally, it is the policy of the
School not to release email listings to any student. HRS Academic Affairs will send group
communications to the appropriate HRS student body if requested in writing.

COMPUTER RESOURCES
Upon admission into an HRS program, an account is setup that allows students to access school
computers. Activation and user name are not required for use. A small amount of network storage space
is provided with the account for students. Students should keep their own data on portable storage
deVICES, not on machines in the building.

All HRS students, faculty, and staff may use the two HRS computer labs. Hours of operation are 7:00
a.m. to 5:00 p.m., Monday through Friday. Room 435 is used frequently for classroom instruction and
during the classes; the lab is closed to all other HRS students. Reserved times for Lab 435 can be found
by calling the HRS Student Service Office’s front desk at 614-292-1706.

Room 227 will remain open during regular business hours and cannot be reserved or closed for group
sessions. All HRS computers have the Office suite of programs, SPSS, and many specialized programs
that are used by the various programs. Additionally, computers are available in the Prior Health Science
Library for student use.

Absolutely no food or drink are allowed in the labs at any time. No software can be installed on the lab
computers. All computer lab areas are to be left clean and free of debris. Violations of the rules of use
will result in suspension of the student’s use of the computer lab facilities. Report any issues with
computers or network to the IT System Administrator at 614-685-1560.

FUNDRAISERS
Registered student organizations interested in fundraising activities must submit a written request to
the Office of Academic Affairs two weeks prior to the initiation of any fundraising event held in the
School.

The written request must include: the description of the proposed fundraising activity including any
permission obtained from other University campus offices and any insurance coverage, if applicable.
Additionally, registered student organizations must obtain the approval of the HRS Academic Affairs
Director before inviting vendors for on-campus visits and presentations, all activities involving health
screenings and the use of the HRS logo on products for sale, as they must follow university guidelines.

In case of space conflicts, regarding the use of space in Atwell, priority will be given to “standing” events
that occur on an annual basis.
**Fundraising with food items**

Only pre-packaged food items prepared by a licensed food vendor items can be sold for a donation of the buyer’s choice. Registered student organizations that sell food for a set price, or offer events that charge admission and offer food, must apply for a temporary food vendor license through the Columbus Public Health department. For questions or further information, please contact the Director of HRS Student Services.

**DISABILITY SERVICES**

The OSU Office of Life, Disability Services [http://slds.osu.edu/](http://slds.osu.edu/) provides services and accommodations for a wide variety of students with disabilities. Any student who has a mobility, visual, or hearing impairment; head injury; diagnosed learning disability; or attention deficit hyperactivity disorder (ADHD) is eligible for services. Students with a chronic illness are also eligible for services. The counselors at Disability Services determine who is eligible based upon a diagnosis and the student’s assessment of specific needs. Individuals with temporary disabilities may also receive services.

**Eligibility for services**

Staff members at Disability Services determine specific services and accommodations for each student. To receive services, a student with a disability must provide appropriate documentation of their disability, which must meet set criteria.

**Student responsibilities**

It is the student’s responsibility to provide written documentation of the diagnosis of the disability. All diagnoses must be confirmed by OSU Disability Services before special arrangements can be made. The student is responsible for all costs related to the diagnosis.

The student is strongly encouraged to disclose the disability to each instructor and to make their accommodation needs known during the first thirty days of the onset of the semester. Students are reminded that instructors are under no obligation to provide accommodations for students with disabilities who do not make this need for special accommodation known to them.

**MENTAL HEALTH COUNSELING**

Counseling and consultation services are available to all students currently enrolled in the School of Health and Rehabilitation Sciences and the College of Medicine. These services include:

- Individual therapy
- Group therapy
- General mental health consultation

Appointments are made by emailing: hrscom.counseling@osumc.edu.

**ACADEMIC SUPPORT SERVICES**

**MISSION**

To provide collaborative and comprehensive academic advising that empowers students in the development of meaningful educational plans that are consistent with their academic, personal, and professional goals through direct service to the student and in partnership with the School of Health and Rehabilitation Sciences faculty and The Ohio State University campus resources.
**VISION**
To be recognized as a campus leader focused on providing holistic and personalized advising to support the School of Health and Rehabilitation Sciences student success in achievement of their academic and future professional goals.

**ACADEMIC ADVISING**
HRS academic advising services is located in the Office of Academic Affairs in 206 Atwell Hall, 453 West 10th Avenue. The mission of academic advising is to facilitate student achievement of academic goals in a timely manner. This is achieved by providing dependable, accurate, friendly, respectful, and professional services to students in the following areas: 1) course selection, 2) completion of academic requirements, 3) transfer credit evaluations, and coordination of the college petition process with the faculty. Academic advisors are knowledgeable about other support resources and will refer as necessary. Self-reliance is encouraged by HRS by helping students make informed and responsible decisions; students are encouraged to be responsible for their own success and progress.

**How to Schedule an Appointment**
Appointments are usually scheduled for 30 minutes per meeting but can be longer if requested. *Appointments are not made by email.* Meeting with an academic advisor during drop-in hours is an option for students needing no more than 10 minutes with an advisor. These meetings do not require an appointment, but are subject to availability and will be listed in the student weekly email.

**HRS Undergraduate Students**
All students except enrolled in Health Sciences, have both a faculty and a college office (academic) advisor. The faculty advisor is in the student’s program and the college office advisor is the Director of Student Services. Health Sciences students have two HRS academic advisors and no faculty advisor listed. Both academic advisors will be listed in your Buckeyelink.

To schedule an appointment with your college office advisor, call 614-292-1706. To schedule an appointment with a Health Sciences academic advisor, either call 614-292-1706 or use OnCourse. For questions or to schedule an appointment with your faculty advisor, please email your faculty advisor directly.

**HRS Graduate Students**
All students have a faculty advisor listed in Buckeyelink. The faculty advisor is in the student’s program. For additional assistance with school and university policies, students can make an appointment with the HRS Graduate Program Manager, Ashley McCabe by calling 614-292-1706.

**HRS Certificate Students**
All students have a faculty advisor listed in Buckeyelink. The faculty advisor is the certificate director and should be emailed directly for appointments. For additional assistance with school and university policies, undergraduate students can make an appointment with their HRS academic advisor or the Director of Student Services, if not enrolled in an HRS academic program. Graduate students can call 614-292-1706 to arrange an appointment with the HRS Graduate Program Manager, Ashley McCabe.

**The advising partnership: advisor & advisee roles:**
The advising partnership is designed to provide students with opportunities for consultation with a professional who understands the exploration and decision-making process of academic and career
matters. Advisors have expert knowledge on the School’s academic curriculums and your chosen profession. Students, however, are the ones who control their academic and career path.

**The faculty advisor’s role:**
Provide consultation with the student on matters of career goals and decision making regarding academic, professional course selection and course planning; Act as an advocate for the student within the professional program and the University setting; Maintain records of the student’s academic performance; Make appropriate referrals for the variety of situations that arise during a student’s academic career, including: transition issues, safety concerns, personal conflicts, career exploration, and student advocacy.

**The college advisor/major advisor role:**
Communicate accurate information about GE degree requirements, resources, and academic standards; Act as an advocate for the student within the professional program and the University setting; Maintain records of the student’s academic performance; Make appropriate referrals for the variety of situations that arise during a student’s academic career, including: transition issues, safety concerns, personal conflicts, career exploration, and student advocacy.

**The student’s role in advising:**
Share accurate information; Seek help before a situation escalates into a crisis; Prepare for advising appointments by researching information and maintaining a file of advising materials; Know and complete GE and program requirements; Audit academic records regularly; Always ask questions and follow through on plans of action; Explore career options.

**BUCKEYELINK**
**Online Scheduling:**
Ohio State University students register for classes using BuckeyeLink. Use this web site to: learn to navigate SIS Buckeyelink, check grades, review financial aid status, review statement of account (fees), change address, manage Ohio State University Internet username account, view class schedule, link to valuable university resources, check class schedule weekly before the term starts, check class schedule daily during the entire first week of classes.

**DEGREE AUDITS**
HRS undergraduate and certificate students are encouraged to access their degree audit online at http://www.buckeyelink.osu.edu. The degree audit is a computer-generated planning tool that shows the coursework completed and how it relates to degree requirements. It is designed to help students and advisors track progress toward the degree/certificate.

To achieve an accurate audit, it is important to take care of petitions early in the first semester of enrollment in a HRS program with your college advisor/major advisor. Audits are easy to read and interpret, but if students have any problems interpreting their audit or they find an error on the audit, they should contact their college advisor/major advisor via e-mail.

All exceptions are entered into the University system by the HRS Student Service Office. Please allow 1-2 weeks for the exceptions to be processed, especially during the end of term. Priority for such revisions will be given to graduating seniors.
Please note that the audit itself will not prevent a student from graduating if categories are incomplete and colored red. Only the Director of the Student Service Offices and/or the program director has the ability to revoke a student’s application to graduate if degree requirements are not met by the Friday before graduation.

Emergency Grading Policy:
In times of exceptional circumstances, the university may invoke an emergency grading system. For more information visit Office of Academic Affairs.

REGISTRATION
Students can access registration information and schedule online through the University Registrar’s home page: http://www.buckeyelink.osu.edu/ unless you are a new student at Ohio State; if so, please contact the HRS Office of Academic Affairs to arrange an appointment with the Director of Student Services or major advisor as applicable.

Course registration occurs each term with a systematic process beginning part way through one term and ending with tuition and fee payment. Ohio State University students register for classes using the University’s registration system that is accessed via BuckeyeLink. Students must officially register for the classes they attend.

Students should plan out the courses they wish/are required to take. One of the main functions of academic advisors is to help students select courses that best suit the student’s individual capabilities and educational goals. Students should arrange an appointment with their advisor in advance of registration to discuss their following term’s course schedule. The Registrar’s Office will send students an email notification about when they can register for courses for the next term. The date and time in when students can enroll in Ohio State University courses for a given term is referred to as the “Enrollment Appointment”.

Prior to registering for courses each term, students are required to complete a Student Responsibility Statement. The Registrar’s Office will place a Registration Lock Hold on the student’s Buckeyelink until the statement is completed, preventing registration, adding classes, or moving off a wait list. Once registration appointments are assigned each term, a student can complete the Financial Statement of Responsibility online. If a student has a hold on their account (overdue library book, parking ticket, etc.), they must have it cleared before their enrollment appointment begins. Students should contact the office that has placed the hold on their account.

Students register for classes via Buckeyelink. Organizing their course selections before accessing the registration system will save considerable time. Every minute a student waits to schedule after their enrollment appointment begins other students who have lower priority have a chance to register for the course before the student with a higher registration priority. Because registration is live, students will know immediately whether they enrolled in a class. This makes it especially important to be prepared with backup times for classes the student is interested in taking in case the section they want is full. Students should also have alternate course choices ready in case all sections of the course are completely full. If permission of the instructor is needed to add a course, students should obtain permission from the course instructor before the student’s enrollment appointment begins, or they will not be able to add the course to their schedule. Obtaining permission requires getting a Course Enrollment Permission Form from the HRS Office of Academic Affairs or online at the Registrar’s
website. It must be signed by the instructor. After getting the appropriate signature, students must have
the form processed by their college advisor/major advisor. Some instructors are willing to send the
student an email providing authorization for the student to be added to their course. These emails can
be forwarded to your college advisor/major advisor so the advisor can add the course when the
enrollment appointment is open for the student.

After the first Friday of the semester, the student is responsible for contacting Buckeyelink to ensure
that they have a full understanding of all the financial, academic, and athletic, implications if applicable
of adding or dropping courses, including (but not limited to) additional fees, penalties, and/or applicable
refunds. Students take full responsibility for scheduling their own courses each semester.

Finally, it is the expectation of the University and HRS Office of Academic Affairs that a student’s
schedule is finalized by the first Friday of the semester. As a result, any issues that arise due to a change
in a student’s schedule is entirely the responsibility of the student. If fees are assessed for changes made
to a student’s schedule, it is the responsibility of the student, who registered for courses late or
added/dropped courses after the stated Registrar’s deadline, to pay the fees. Please refer to the
University deadlines related to registering online at www.buckeyelink.osu.edu.

Fee Waiver
Fees may be waived by the University Registrar’s office if the student meets specific conditions. Please be
aware that fee waivers are left to the discretion of the University. Submitting paperwork to your
academic advisor or unit after 5:00 p.m. on the 2nd Friday or not being aware of deadline is not a valid
reason to waive the fee.

Scheduling Resources
Assistance for scheduling is provided by the student’s advisor. However, there are resources that will
help students keep on track with their program and degree requirements as well as their progress
toward graduation.

- **Course Catalog**: This resource includes course descriptions, course content, prerequisites
  requirements and restrictions.

- **Schedule of Classes**: This resource includes course offerings for the specific term, dates and
deadlines, information on registration, using the web registration system, blocking out free
time, wait listing, and clearing holds online.

- **Schedule Planner**: The Schedule Planner is a web-based class scheduling system that allows
  students to select courses from the Schedule of Classes and block out "breaks" or time they
  need to set aside during the day for studying, extra-curricular activities, work schedules,
  internships, athletics, etc. Schedule Planner is integrated with Student Information System and
  is linked from the main Buckeyelink page.

- **GE Course List, Curriculum Guides and Program Handbooks**: These resources can be found on
  HRS website.

- **Degree Audits and Advising Reports**: A degree audit is a tool to assist undergraduate students
  and advisors with determining how courses the student completed fulfill general education and
program course requirements. Students can run their own degree audits. For information on how to access and use a degree audit, visit [http://u.osu.edu/hrssso/degree-audit/](http://u.osu.edu/hrssso/degree-audit/).

Advising reports are unofficial transcripts and include a listing of courses a student completed and grades earned according to the term taken. Students can view their own advising reports in their BuckeyeLink.

**Adding Classes**

If qualified to take the course and spots are available, students may add courses online (after their first semester of enrollment) through Friday of the first week of classes. After the second Friday and through the third Friday, a student must have the permission of the instructor AND the permission of the Department or Division Chair of the course the student wants to take on a [Course Enrollment Permission form](http://u.osu.edu/hrssso/degree-audit/) to enter a class. After getting the appropriate signatures, the form must be processed by the student’s academic advisor.

To add a course after the 3rd Friday, students must submit a petition to their academic advisor. To support the petition, students must have the above two signatures, as well as valid reasons for failure to timely enroll in the course. Students will be charged late add fees of $100 for each class added after the 2nd Friday of classes i.e., if the petition is approved.

The enrollment form is available in the [HRS Blog](http://u.osu.edu/hrssso/degree-audit/) or the [University Registrar’s website](http://u.osu.edu/hrssso/degree-audit/). After the stated deadline, all add transactions must be completed through the student’s academic advisor. Finally, for courses changes after deadlines, HRS students are required to complete and sign the School’s supplemental form available. For important add and drop dates for each term, visit the [University Registrar](http://u.osu.edu/hrssso/degree-audit/) and select "Important Dates". Graduate students must complete a Late Course Petition through Gradforms. The process to petition to add a course late can be found [here](http://u.osu.edu/hrssso/degree-audit/). See more on pg. 62.

**Dropping classes**

Before dropping classes, students should consider how this would affect both their progress toward their degree and their financial aid status (if applicable). They may wish to consult with Buckeyelink as well as their academic advisor about the consequences of dropping a course. Students may drop courses online through the fourth week without any documentation on the transcript; from the fifth to the tenth week, a student must submit a completed [Drop Request and Supplement form](http://u.osu.edu/hrssso/degree-audit/) to their academic advisor per the posted deadline. A "W" will be entered on the transcript when a course is dropped during this timeframe. HRS students cannot drop a course after Friday of the tenth week.

Graduate students must complete a Late Course Petition through Gradforms. The process to petition to drop a course late can be found [here](http://u.osu.edu/hrssso/degree-audit/). See more on pg. 62.

Courses cannot be dropped after the 10th Friday without a petition. If, because of extreme extenuating circumstances, a student wishes to drop a class after the 10th Friday, they need to see their academic advisor to receive the petition form. The student will need supporting evidence listed on the petition. Students are encouraged to include a letter of support from the course instructor with their petition. Courses cannot be dropped after the 10th week simply because of poor academic performance in a class.
If courses are dropped on or before the 4th Friday, no record of enrollment in the course will be recorded on the student’s transcript. If the course is dropped after the 4th Friday of the term, the student will receive a "W" on their transcript, indicating they withdrew. Multiple W’s on a student’s academic record may suggest a pattern of careless enrollment and may be questioned by other academic units or institutions.

Finally, students should contact the appropriate office before dropping below full-time status. A reduction in hours due to a course drop may affect:

- Financial aid (including scholarships, grants, loans, and consortium agreements)
- Benefits received under the G.I. Bill - Office of Veteran Student Services
- Tuition reduction received when a parent works for the university
- Automobile insurance if a student is receiving discounts for being a full-time student
- Health insurance, if a student needs to maintain full-time status to be covered under a parent’s policy
- Residence hall contract
- Tuition waiver if the student is also a university employee
- Athletic eligibility; student athletes must see their assigned SASSO Advisor for approval
- Visa; international students may be required to see an advisor in the Office of International Affairs for approval

**PETITIONS**

Common uses for undergraduate petitions include:
Substitution of coursework • Dual-Degree request • Dropping a course after the deadline • Increased credit hour load (above 18 credits) • Evaluation of Special or General Transfer credit courses • Propose an alternative course required for a GE • Petition a college policy or procedure related to the major or minor and/or completion of the degree • Grade Forgiveness • Residency Petition

Types of Petitions • Curriculum Petition • Dual-Degree Petition • Petition for Exceptional Request • Registration Petition • Petition to Receive Undergraduate Credit for Graduate-Level Course • HRS Overload Request Form

Common uses for graduate petitions include:
Petition to Add/Drop a Course Late • Petition to Add an External Committee Member
These petitions need to be completed through Gradforms. Please contact the Graduate Program Manager for more information.

**Curriculum petition**
Students must meet with their HRS academic advisor to complete a curriculum petition if they want to substitute another course they have taken or plan to take for a required GE course or major course. Students should bring a copy of the course syllabus to the appointment with the college advisor/major advisor. Students who feel that they have met the spirit of a program or degree requirement without fulfilling the exact course requirement or equivalent may petition to their program to use of these credits.

The petition can be obtained from the HRS Office of Academic Affairs after meeting with their academic advisor. It must be submitted to their college advisor/major advisor. Students may be asked by their academic advisor to secure additional assistance in evaluating the credit by the appropriate University
department. Once the written approval from the Director of Academic Affairs, the petition is then returned to the HRS Office of Academic Affairs for final processing. Students are required to check their degree audit to ensure the petition was processed. Please allow 1-2 weeks for processing.

**Dual Degree and 2nd Major petition**
A dual degree petition must be completed when a student wants to complete two separate baccalaureate degrees—the HRS degree and another Ohio State University undergraduate degree. Students must earn a minimum of 30 hours beyond the total required for one degree. GE courses may count for both degrees. Students interested in completing a dual degree are required to meet with an advisor from each degree to develop a degree plan, which demonstrates both programs can be completed in a timely manner. At the time of successful completion, the student will receive two diplomas from the University.

A declaration of a second major outside the College of the Student’s Degree must be completed when a student completes two majors as part of a single undergraduate degree program. If available, the student must complete the requirements for each major as set by the department offering the major. While overlap between the majors is permitted, each major must contain a minimum of 18 unique credits. At the time of successful completion, the student will receive one diploma from the University. Students interested in either option should make an appointment with their HRS academic advisor.

**Registration petition**
This petition is used when a student requests to add, drop or withdraw from courses after the deadlines or retroactively. Students are responsible for all fee charges related to registration petition outcomes. For further instructions, students should contact their academic advisor.

**Post-10th Week petition**
“Withdrawal from any and all courses shall not be permitted after the last day of regularly scheduled classes except when the student experiences a genuine emergency after the regularly scheduled end and prior to sitting for the final examination in a given course or courses.” (Faculty Rule 3335-7-32). Occasionally, extenuating circumstances such as personal accidents or serious illness may require a student to withdraw from a single class or all classes after the tenth week. In this case, the student must meet with their academic advisor for further direction. After that meeting, they obtain, complete, and submit a "Post-Tenth Week Petition" form to their academic advisor. Petitions that are incomplete or late will not be reviewed.

The Director of Academic Affairs will review such petitions and will inform students in writing of the outcome within five to seven business days. Petitions will not be approved for academic reasons such as inferior performance. Per University policy, no petition will be reviewed and/or approved after a final grade has posted. When a petition is denied, HRS students can appeal the decision to the Director of the School. See Policy # 21 in this handbook.

**Receive undergraduate credit for graduate-level course petition**
Undergraduate students must complete this petition if they plan to take a graduate level course at The Ohio State University and have it applied to their undergraduate degree. Undergraduate senior students with potential for graduate level studies who do not need to schedule a full-time course load to complete their baccalaureate degree may petition to take up to nine hours of certain courses for HRS credit provided that:

- The student is a senior rank (4);
- The credit for the course is not needed to meet their baccalaureate degree requirements;
- The students' cumulative point-hour ratio is 3.3 or above.

Students must secure permission before registering for the courses from:
- the instructor in charge of the course;
- the Director of the HRS Office of Student Services;
- the Ohio State University Graduate School. The Graduate School will not approve petitions submitted after the first day of classes per term, so students plan if they want to take advantage of this option.

**HRS overload request petition**
This petition necessary when a student wants to enroll in more than 18 credit hours. The petition is not likely to be approved unless there is compelling reason. If the petition is approved, the student will be required to pay additional tuition costs, if applicable.

**Grade Forgiveness petition**
Students can petition to retake a course at OSU for a higher grade. The old grade remains on the student’s transcript but is removed from the GPA. Students should keep in mind that grade forgiveness is an OSU undergraduate policy only; graduate programs may not accept this policy and use all grades. The petition is available online only. Pay close attention to submission deadlines. For a traditional semester course (14 weeks), the online petition is due by the 10th Friday of the term that you would be re-taking the course.

**Residency petition**
Per Ohio State Faculty Rules, graduating undergraduate students must be enrolled in the college or the school (HRS) from which they will receive their degree. The HRS Director of Academic Affairs may, on petition by the student, waive this requirement. Each student’s reasoning for the exception is weighed against University policy. If you are taking a course, such as a prerequisite, GE, major or minor requirement (a course you want on your Ohio State transcript prior to graduation) NOT at Ohio State during the semester you plan to graduate, you must complete the form and required documentation by the stated deadline on the form.

**TRANSFER CREDITS**
The Undergraduate Admissions Office initially reviews all transfer credit, not the HRS Office of Student Services. Each admitted student will receive information regarding their transfer credit report from the University. All evaluated coursework that appears in the transfer credit report may not apply to the degree requirements in HRS. It is the responsibility of the HRS student to be informed of the different options for transfer credits. For this information, please visit Ohio State’s transfer credit website at https://registrar.osu.edu/transfer_credit/tcr_brochure.pdf.

**Transfer evaluations**
Transfer credit may be accepted at The Ohio State University in different ways. If the course is a direct equivalent (course topics are consistent), the student will receive credit for the Ohio State equivalent. For example, HIMT 1121 at Columbus State Community College (CSCC) equals HTHRHSC 2500 at Ohio State. The course is worth three credit hours at CSCC, and transfer credit comes in as "K" credit. K credit does not include + or – included in the original grade and the individual grade will only be listed if the
student earned a D. For example, when a student earns a C- for transfer credit it will be listed only as KC, not KC-.

If a course is not a direct equivalent, credit can also be evaluated as special (SPL), general (GEN), technical (TECH), or deferred (DEF). Courses evaluated as special, general, deferred or technical are noted on the student’s Transfer Credit Report. In hopes of receiving official credit, HRS students should follow the subsequent steps found in the brochure link above to have credit evaluated for all prerequisite and major courses. All other courses that can be used to fulfill the remaining GE requirements, but not prerequisite or major course work, will be reviewed by your college advisor/major advisor for further advisement and evaluation. Each HRS student is responsible for obtaining further evaluation of the non-course specific credits (e.g., SPL, GEN, TECH, and DEF). All transfer credit must be evaluated by the end of the first semester/term of enrollment at Ohio State.

**Interpreting transfer evaluations**

While your college advisor/major advisor may assist with the interpretation of the Transfer Credit Report, it is the student’s responsibility to identify and process all paperwork associated with these categories of credit. All questions concerning transfer credits should be resolved by the end of the first semester/term of enrollment. All university rules for credit hour standards for courses can be found here: [http://trustees.osu.edu/rules/university-rules/chapter-3335-8-instruction.html](http://trustees.osu.edu/rules/university-rules/chapter-3335-8-instruction.html).

Current Ohio State students interested in taking OSU equivalent courses at another college or university should either use [Transferology Lab](https://transferology.com) or contact their college advisor/major advisor to discuss which course is the academic equivalent of the desired Ohio State course. It is the student’s responsibility to check with Buckeyelink to understand all the implications for taking courses at another university as this may change financial aid awards.

The grades received at the other institution are not used to calculate a student’s cumulative Ohio State University GPA. However, all transfer credit and grades will be included in the GPA calculation when a student applies to graduate and professional programs. Any course from an accredited institution with a grade of D or higher can be awarded credit at Ohio State except HRS program prerequisites and program required coursework. Courses with a grade of S (satisfactory) can be awarded credit. Courses with a grade of D-, failing grades and pass/no pass audited courses will not award credit at Ohio State.

Finally, students who wish to apply for a consortium agreement, to have financial aid awards applied toward tuition at an outside college or university will find additional information at the SFA Office’s website [https://sfa.osu.edu/](https://sfa.osu.edu/).

**STUDENT FINANCIAL AID**

Information regarding Ohio State’s Student Financial Aid funding opportunities, student employment, required forms and the FAFSA application can be found on at [https://sfa.osu.edu/](https://sfa.osu.edu/). Individual HRS programs’ funding opportunities can be found on individual program websites for this information. Individual professional funding opportunities can be found on professional websites. University tuition and fees can be found on the Registrar’s website.

The costs associated with clinical experience and other specific program expenses are in the student’s program handbook, available on the HRS website: [https://hrs.osu.edu/academics/academic-resources/student-handbooks](https://hrs.osu.edu/academics/academic-resources/student-handbooks).
EMPLOYMENT, STUDENT
If students plan to become or continue to be employed once admitted to a HRS professional program, it is important that they consult with their faculty/major advisor on how a working schedule may affect their performance in the program. While the faculty/major advisor is sympathetic to a student’s need for employment, employment schedules cannot take priority over the academic and clinical/internship requirements of the program.

GRADUATION
Applying to graduate
Every candidate for a degree, post-baccalaureate certificate of study or certificate is required to file an application for graduation at least one semester prior to the semester of expected graduation. The application and all related information can be found at https://hrs.osu.edu/academics.

- Students who are completing minors that require departmental approval must submit the minor form along with their graduation application;
- The HRS Office of Student Services will review each student’s cumulative record for eligibility for graduation, graduation with honors, and minor completion (if a minor is indicated);
- Candidates approved by their programs and by the School of Health and Rehabilitation Sciences are eligible for graduation;
- Candidates who completed an application to graduate but are not eligible for graduation will be notified via OSU email from the Director of the HRS Student Services Office the semester prior to graduation in most cases;
- The HRS Office of Student Services will e-mail graduation instructions to each candidate’s OSU email the 5th week of the semester of graduation;
- A final list of candidates for graduation including line numbers for commencement, will be emailed to all students by the 8th week of the semester of graduation. At this time, students should check this list for errors in their name, hometown, honors or minor, if applicable. The name on the diploma will match the name of the student on Buckeyelink.

Undergraduate graduation requirements
The following requirements complete the curriculum leading to the Bachelor of Science in Health and Rehabilitation Sciences (BS Athletic Training and certificates where applicable):

- Successfully complete all university general education (GE) requirements. The complete list of courses approved for HRS students to use for GE is available online at https://hrs.osu.edu/academics/academic-resources. A student may find it necessary to earn more than the minimum hours to complete the requirements of both the GE and the program. Remedial, conditional, or repeated courses (e.g., repeated "D's") do not count toward the degree;
- Required to have a cumulative point-hour ratio not less than 2.2 GPA on all work taken at Ohio State;
- Required credit for the work of three full-time semesters at the Ohio State University (i.e., at least 30 credit hours) and be enrolled in courses in the program recommending them for a degree. Some programs have greater credit hour requirements based on accreditation standards. Please refer to your program’s curriculum guide for the definite credit hour requirement.

Minimum hours required for a BS degree in the School of Health and Rehabilitation Sciences
The minimum number of hours required for graduation varies from program to program within the School. Students should check their program’s student handbook to determine how many hours each program requires. Please note that the approval of the GE affects the number of total credits required to graduate. When calculating the total number of hours needed, it is important to consider any remedial or repeated courses, which do not count toward graduation. These courses include but are not limited to the remedial-level courses -- Math 1050, Math 1075, and English 1109 as well as any courses repeated in anticipation of a higher grade. Exception is given to independent courses as well as clinicals.

**Graduate Graduation Requirements:**
Each graduate program in HRS has its own requirements for graduation. Please review your individual program handbooks for specifics on program requirements and work closely with your faculty advisor and the Graduate Program Manager to determine if you are on track to apply for graduation.

- Master’s degree students can refer to section 6.6 and 6.7 in the OSU Graduate School Handbook for graduation requirements.
- PhD students can refer to section 7.12 and 7.13 in the OSU Graduate School Handbook for graduation requirements.

**Certificates**

**Post-baccalaureate certificate of study requirements**
The following general requirements are fulfilled to be eligible for a post-baccalaureate certificate of study from those programs conferring the post-baccalaureate certificate of study:

- Evidence of a previously earned baccalaureate degree;
- Completion of all academic and clinical requirements as designated by the program.

Students who have a bachelor’s degree at the time of their enrollment need to select the degree or certificate of post baccalaureate study during their first term of enrollment for the applicable program. A change from one option to the other may be requested through the program. The “default” position programmed into the degree audit is the B.S. degree option for those students who do not specify prior.

Students completing the post-baccalaureate certificate of study:

- Must complete the required professional courses and all program prerequisites;
- Are not required to complete GE coursework;
- Are not eligible to participate in the HRS Honors program, Research Distinction in their field of student, Latin honors designations, or University Commencement.

Students with previous degrees who elect the second degree (vs. post-baccalaureate certificate of study option) must meet all GE requirements of the University in effect at the time of enrollment in addition to completing all program prerequisites and professional coursework prior to graduation. These students are eligible to participate in the HRS Honors program, Research Distinction in their field of student, Latin honors designations, and University Commencement.

**HRS Pre-Commencement**
HRS Pre-Commencement is a student-sponsored ceremony where faculty and staff can honor each graduating undergraduate and graduate HRS student for their special accomplishments in the School and their program. Students who graduated during the previous summer and autumn semester as well as the current spring semester can participate. Families can meet the faculty and other students who
have been a large part of the student experience at Ohio State. The HRS Pre-Commencement takes place on the Saturday prior to Spring Commencement. Admission is free for graduates. Guests of the graduates may be required to pay admission. If you have any questions, contact the HRS Office of Academic Affairs in Room 206 Atwell Hall, by telephone at 614-292-1706, or by email at HRSStudentServices@osumc.edu.

Honors Opportunities
The HRS Honors Program offers select undergraduate students with high academic abilities the opportunity to expand their scholarly development as they seek their degree at The Ohio State University. The HRS Honors Program supports intellectual and personal discovery by providing a personalized learning adventure. The HRS honors student is passionate about learning and accepts challenges to address real world problems. By completing advanced levels of study and creatively engaging in leadership, research, teaching, and service, HRS Honor students can graduate with Honors in HRS. Students will develop their own honors plan of study. For students who elect to conduct research as part of their plan of study, they will work one-on-one with HRS faculty to contribute new discoveries to health-related fields. Interested students are invited to visit the program’s website.

HRS Minor Policy
University approved minor programs are available to undergraduate students in the School of Health and Rehabilitation Sciences as an option to complement or enhance their program of interest. HRS programs do not require minors for graduation except for the Health Sciences program. Each minor has its own conditions and requirements. It is the student’s responsibility to review and be aware of these restrictions.

Minors offered in HRS include:
- The Integrative Approaches to Health and Wellness
- Aging
- Medical Laboratory Science

HRS Certificates
Certificate programs help students to develop new skills and build expertise in a specialized content area. Certificates can be helpful with updating a professional profile, advance a career, or broaden one’s knowledge base.
Certificates can be either undergraduate, graduate, post-undergraduate, or non-academic (such as certificates of completion). The distinguishing feature of undergraduate and graduate certificates is that they are awarded to students based on successful completion of specific courses (a minimum of 12 credit hours). The undergraduate or graduate certificate can be obtained while enrolled in a degree program simultaneously.

Certificates offered in HRS include:
- Assistive and Rehabilitative Technology
- Usability and User Experience
- Medical Coding and Healthcare Data Analytics
HELPFUL RESOURCES

Time management
Managing your time effectively is key to academic success. University courses require hard work. Students will need to strike a balance between the demands of your course work and all the competing demands in your life—extracurricular activities, social activities, volunteer work, employment, family obligations, and sufficient exercise and sleep to remain healthy, to name a few—that may diminish the time you will have available to succeed academically.

One useful index to help estimate the time your course work will require is the Ohio State faculty rule that establishes the time a student should spend to earn one credit hour: two hours per week outside of class and one hour in class to earn a grade of “C.” A three-hour class, therefore, should require nine hours per week to earn a grade of “C,” and a fifteen-hour schedule will require a commitment of about 45 hours per week. Students who expect to earn higher grades will need to invest significantly more time in their course work.

To help you track the demands of your courses—due dates for assignments, examinations, and papers—along with the various other activities that will take you away from your schoolwork, we strongly recommend that you keep a calendar or planner.

Careful planning will help you to use your time more effectively and to see in advance, when you can plan for them, the more stressful weeks in your schedule. If you find you are having trouble managing your time effectively, the following web site on time management might be a useful tool to help you get started: www.studygs.net/timman.htm.

OSU STUDENT ORGANIZATIONS
Student organizations must register with the Ohio Union as an active organization at Ohio State, (https://activities.osu.edu/). Each registered student organization must have its president, treasurer and faculty advisor complete training sessions. Benefits for being an active organization include eligibility for up to $200 in operating funds and access to resources for marketing, publications, etc. Registered student organizations may also apply for programming funds depending on established status. Programming funds are to be used to host a program or events on-campus that are open to any Ohio State student. Requests are submitted by the fifth Friday of the semester prior in which the event is to occur.

HRS student organizations
Recognized student organizations within the School include the following: HRS Leadership Academy; AT, HIMS, and Health Science Clubs, Student Dietetic Association (SDA), Student Occupational Therapy Association, Physical Therapy Club, and HRS Student Ambassadors.

School of Health and Rehabilitation Sciences (HRS) Leadership Academy Vision:

Vision Statement: To be an interdisciplinary coalition of role-models and advocates for the development of future leaders in the health professions.
**Mission Statement:** To strengthen the HRS student community, foster leadership skills, and promote interprofessional collaboration through programming, events, and outreach.

**Goals for HRS Leadership Academy:**
1. Develop leadership qualities that embody the 5 Practices of Exemplary Leadership:
   - Model the way
   - Inspire a shared vision
   - Challenge the process
   - Enable others to act
   - Encourage the heart
2. Promote positive, unified, and inclusive culture in HRS through school events and outreach.
3. Contribute to HRS governance by participation in school-wide committees.
4. Develop projects for service, wellness and/or outreach for the students, faculty and staff of HRS.
5. Lead implementation of leadership project(s) within HRS.

**Representatives from each program will be selected to represent each academic class.**
- Athletic Training: 3 representatives- Fr/SO, Junior, Senior
- HIMS: 3 representatives- Fr/SO, Junior, Senior
- Medical Dietetics: 3 representatives- Fr/SO, Junior, Senior UG
- Health Sciences: 3 representatives- Fr/SO, Junior, Senior UG
- Medical Laboratory Sciences: 3 representatives- Fr/SO, Junior, Senior
- Radiological Sciences: 3 representatives- Fr/SO, Junior, Senior
- Respiratory Therapy: 3 representatives- Fr/SO, Junior, Senior
- Occupational Therapy: 3 representatives: First year, Second Year, Third Year
- Physical Therapy: 3 representatives: First year, Second Year, Third Year
- MS: 2 representatives: First year, Second Year
- PhD: 2 representatives: One pre-candidacy/ one post-candidacy

**Benefits of being a member of the Leadership Academy:**
- Develop leadership and professional skills that will enhance career development and contribute to future professional positions.
- Provide the foundation for Interprofessional education within HRS and the university.
- Access to national professional development.
- Establish a legacy of service and leadership for the School of Health and Rehabilitation Sciences and The Ohio State University.

**Members of the Leadership Academy are expected to:**
- Participate in all Leadership Academy activities.
- Successfully complete all leadership trainings.
- Uphold all components of the HRS student honor code.
- Strive to be the professional role-model for the students in HRS and the College of Medicine.

Any student interested in learning more about these organizations should refer to the Division and the list of student organizations found on the Ohio Union website.
COVID-19 ADDENDUM to HRS Student Handbook
August 2021
(Subject to change)

During spring 2020, our academic environment changed dramatically due to the COVID pandemic. Thus, our policies and procedure to maintain safety for students, staff and faculty have changed as well. This continues to be a very fluid situation that will necessitate our constant update for this section of our student handbook.

Background:
- Outbreak started in December 2019 in Wuhan, China- Initially linked to a large seafood and animal market
- Virus is named SARS-CoV-2-SARS-CoV-2 causes Coronavirus disease 2019 (COVID-19)
- Spread via person-to-person transmission primarily via droplet transmission
- Symptoms have ranged from mild to severe respiratory illness and death: Fever; Cough; Shortness of breath; Body aches; Loss of taste or smell
- Incubation period is 1 to 14 days (most patients ill within 10 days of exposure)
- 80% or more of patients do NOT require hospitalization and have only mild/moderate symptoms
- Estimated mortality is between 1-9% and varies based on the country where the patient resides and patient’s age
- Mortality rate is higher than influenza but due to the protective effect of influenza vaccination
- Patients at highest risk of severe COVID-19 disease: older adults, Chronic medical conditions including heart disease, diabetes, lung disease, Immunocompromised patients

HOW TO STAY UP TO DATE:

- Information is evolving quickly, and changes occur rapidly.
- Please read the university and OSU Medical Center updates.
- Most up-to-date information is on both the: OSUWMC Coronavirus page https://wexnermedical.osu.edu/features/covid-resources and
- Safe and Healthy Buckeyes: https://safeandhealthy.osu.edu/. All current policies and procedures for students, faculty and staff are located here.
- Clinical Epidemiology OneSource page: https://onesource.osumc.edu/departments/epidemiology/Pages/default.aspx
UNIVERSITY GUIDELINES: SAFE AND HEALTHY BUCKEYES  
HTTPS://SAFEANDHEALTHY.OSU.EDU/CURRENT-STUDENTS

The university guidelines for management of COVID-19 are provided at the safe and healthy website. This site is updated constantly and serves as the most up-to-date information available for university policy.

Ohio State students, faculty and staff must follow the Safe Campus Requirements outlined on the Safe and Healthy Buckeyes website https://safeandhealthy.osu.edu/.

Building Use

- Building hours are 7:30-5:00. After 5:00 pm, entrance is only allowed when accompanied by a faculty member.
- Please wipe down the area in the lobby after use using cleansing wipes provided in the lobby.

Mask Guidelines:

All students should feel empowered to continue to wear masks if they feel comfortable doing so. Current Ohio State guidelines are listed below. Masks are required for all indoor spaces.

<table>
<thead>
<tr>
<th>CAMPUS LOCATION</th>
<th>FULLY VACCINATED</th>
<th>NOT FULLY VACCINATED</th>
</tr>
</thead>
<tbody>
<tr>
<td>Indoor public spaces – including classrooms, research labs, offices, campus buildings, recreation centers, dining facilities, residence halls, childcare centers, meeting and event space</td>
<td>Masks required</td>
<td>Masks required</td>
</tr>
<tr>
<td>Outdoor public spaces</td>
<td>Masks not required</td>
<td>Masks recommended</td>
</tr>
<tr>
<td>Transportation – including CABS and shuttle buses</td>
<td>Masks required</td>
<td>Masks required</td>
</tr>
<tr>
<td>Wexner Medical Center facilities (including the Nisonger Childcare Center), Student Health facilities and colleges and units with public facing clinical operations</td>
<td>Masks required</td>
<td>Masks required</td>
</tr>
</tbody>
</table>

The university has compiled guidance on how to respectfully encourage compliance with face mask guidelines on campus.

August 30, 2021: Effective immediately, Ohio State students, faculty and staff are no longer required to complete the daily health check when they are well. All employees should stay home instead of coming
to work if they are experiencing symptoms of illness. Please note that Wexner Medical Center faculty and staff, as well as students with clinical responsibilities in hospital facilities, are required to use the Ohio State app or [compass.osu.edu](http://compass.osu.edu) to report if they are experiencing COVID-19 symptoms prior to their scheduled workday.

**Social Distancing within the building**

- Classroom numbers are determined by university guidelines and any signage should be strictly followed.
- Faculty will organize students within cohorts in order to limit student-to-student exposure.
- If a learning space is used for approved clinical laboratory activities, hand sanitizer, wipes, and applicable PPE will be in each room.
- Upon arrival to the designated laboratory space, students are asked to clean their hands with hand sanitizer.
- Students will change gloves (if required for that lab) and clean their hands between each interaction with another student.
- After the laboratory session, students will disinfect the laboratory equipment with approved EPA registered cleaning solutions monitored by faculty.

**Atwell Hall Prayer Room 527 Atwell Hall COVID Guidelines**

- To gain student access: Email adam.clouser@osumc.edu so that he may code the student BUCKID for access to the room.
- One person may use prayer room at a time.
- Masks must be worn while in the prayer room.
- Hand sanitizer, wipes, and extra face masks will be in the room.
- Before using the prayer space, sanitize hands and wipe any surface that will be touched.
- After use, wipe any surface that was touched and sanitize hands once again.
- Return room back to original condition and assure that door is

**COVID VACCINE**

The College of Medicine and The School of Health and Rehabilitation Sciences, as part of an academic medical center, have a responsibility to prioritize the health and safety of our campus and the community in which we teach and learn. Part of that responsibility involves ensuring that as many members of our college community as possible have received the COVID-19 vaccine. COVID-19 vaccines are widely and easily available, and the College of Medicine has an obligation to ensure that students do not pose a risk of infection to their patients.

**POLICY** In alignment with Wexner Medical Center Medical Staff Policy, COVID-19 vaccinations are **required for all professional students in the School of Health and Rehabilitation Sciences College of Medicine** unless they have been granted an exemption for vaccination.

**DEFINITIONS**

Fully vaccinated: 2 or more weeks after the second dose of a COVID-19 vaccine that is a two-dose
vaccine, or 2 weeks after a COVID-19 vaccine that is a single dose vaccine. The vaccine must be a COVID-
19 vaccine that is approved for use (Full or Emergency) by the US Food and Drug Administration or the
World Health Organization.

PROCEDURE

1. All students attending the School of Health and Rehabilitation Sciences in the College of
Medicine and enrolled in professional programs (as listed below) must receive either at least
one dose of the COVID-19 vaccine or an approved exemption by the end of business day on
October 15, 2021.

<table>
<thead>
<tr>
<th>Athletic Training (BS-AT)</th>
<th>Doctorate of Occupational Therapy (OTD)</th>
</tr>
</thead>
<tbody>

<tr>
<td>Medical Laboratory Sciences (BS-HRS)</td>
<td>Master of Dietetics and Nutrition</td>
</tr>
<tr>
<td>Radiation Therapy (BS-HRS)</td>
<td>Radiography (BS-HRS)</td>
</tr>
<tr>
<td>Sonography (BS-HRS)</td>
<td>Respiratory Therapy (BS-HRS)</td>
</tr>
</tbody>
</table>

2. Proof of vaccination must be provided via the Student Health Portal, My BuckMD by October 15,
2021. Individual programs may additionally request proof to be submitted to their clinical
coordination system (EXAAT or E-Value).

3. Students can qualify for an immunization exemption on the basis of religious or medical
grounds. Exemption requests can be submitted to the Wexner Medical Center Employee Health
using the COVID-19 Vaccine Exemption Form:
https://onesource.osumc.edu/sites/Coronavirus/Documents/COVID-19%20Vaccine/COVID-
19%20Vaccination%20Exemption%20Form.pdf.

A completed form and any additional required documentation as outlined here should be
scanned and emailed to employeehealth@osumc.edu.

   a) In the event an exemption request is denied, students will be provided an appropriate
deadline to become fully vaccinated.

   b) If an exemption request is denied and the student chooses to decline vaccination, the
student will be placed on administrative leave of absence until either 1) The vaccination
requirement is rescinded or 2) the student provides proof of vaccination.

4. Effective October 16, 2021 students may not access campus unless they are fully vaccinated or
have an approved exemption.

As a future health professional, the School of Health and Rehabilitation Sciences and the
College of Medicine strongly encourage all other HRS students to be fully vaccinated.
Starting later this summer, Ohio State will be reducing the testing requirements for students who have been fully vaccinated against COVID-19. For vaccinated students attending our Columbus campus or living in university housing on any campus, testing will be required once a month or less, while unvaccinated students will be tested once a week or more. In addition, students who are vaccinated will usually not be required to quarantine if they are exposed to someone with COVID-19.

The university is asking students to voluntarily share their vaccination information so that the university can adjust individuals' testing schedule and quarantine requirements. This information will also assist Ohio State's overall public health response.

How to report your vaccination status: Returning students will receive a message through MyBuckMD asking them to log in with their Ohio State username (lastname.#) and provide consent for Student Life Student Health Services to access their vaccine information, including name, vaccination date(s) and the vaccination brand name/type.

- Students who received their vaccine in the state of Ohio and provide consent will allow the university to access their vaccination information through Ohio Department of Health records.
- Students who received the vaccine outside the state of Ohio will be asked to provide consent and upload the information directly through MyBuckMD. Many international vaccines will be accepted based on Centers for Disease Control and Prevention guidelines, which rely on World Health Organization assessments.

Sharing COVID-19 vaccination information is the first step before Ohio State can implement changes to the testing schedule. Please note: It will take at least a few weeks before the university can start the monthly testing schedule for COVID-19 vaccinated students attending summer sessions. Information will be shared as soon as that system is ready.

**Vaccine Clinic at Jesse Owens North Recreation Center and McCampbell Hall**

A new COVID-19 vaccine clinic is open at Jesse Owens North Recreation Center. Vaccines for faculty, staff and students are available at Jesse Owens North, 2151 Neil Ave. This location also serves as a COVID-19 testing site. An additional site for vaccines is located at University Health (McCampbell Outpatient Care) Monday through Friday from 7:30 a.m. to 4 p.m. for people 18 years of age and older. More information can be found at https://safeandhealthy.osu.edu/vaccine
**Student Clinical/Fieldwork Rotations**

Prior to entering a clinical or fieldwork rotation, the academic program assures the following:

1. All students complete a clinical attestation form acknowledging the training responsibility, the requirement for daily temperature testing, use of PPE and risk of work in the clinical environment.

2. All students are required to receive either at least one dose of the COVID-19 vaccine or an approved exemption by the end of business day on October 15, 2021.

3. All students are required to complete identified modules on BUCKEYELEARN for infection control, DON/DOFF PPE, COVID risk, and hand hygiene. Individual programs have additional competency measures dependent on the role of the learner. Students may be required complete further training at their assigned clinical sites.

4. Each program has coordinated with the Supply Chain Work Group at the OSU Wexner Medical Center to define the personal protective equipment (PPE) needs for all learners in the clinical, non-clinical, and research environments. Depending on the classroom/laboratory-based instruction, PPE may include gloves, gowns, and goggles in addition to masking. A process has been defined so that PPE is ordered by the Medical Center for learners in the clinical environments and by the programs for non-clinical experiences. Students are fit tested for N-95 masks and have eye protection where it is needed.

5. **COVID Testing:** OSU comprehensive testing program provides regular testing of all unvaccinated students living in residence halls or university managed housing; regular testing of all unvaccinated students living off-campus; voluntary testing of asymptomatic students and for those students who are symptomatic. The most up-to-date instructions can be found here: [https://safeandhealthy.osu.edu/testing](https://safeandhealthy.osu.edu/testing)

6. **Care for patients with COVID:** In order for a learner to work in the clinical environment with potential COVID patients, each academic program has outlined the educational rationale for the learner and has documented to the Vice-Dean of Education- College of Medicine. Accommodations for any student who wishes to opt out of the experience is described in the educational request. Learners must follow all safety protocols for each site.
Acknowledgement of COVID-19 Risk During Clinical Educational Experiences

As a student at the Ohio State University College of ________________, I wish to continue my education by entering into a clinical educational experience. The Ohio State University College of Medicine, the School of Health Rehabilitation Science, and The Ohio State University Wexner Medical Center have taken the following measures to minimize the risk of the spread of COVID-19 in the healthcare setting:

- Requirement for all employees and learners to receive either at least one dose of the COVID-19 vaccine or an approved exemption by the end of business day on October 15, 2021.
- Pre-operative COVID-19 testing of all patients having a procedure/surgery
- Universal COVID-19 testing of inpatients
- Proper isolation of identified COVID-19 patients
- Daily screening of all OSUWMC physicians, staff, and visitors for signs of illness
- Frequent cleaning of the hospital, including high-touch surfaces
- Limiting visitation in the various OSUWMC facilities/hospitals
- Using appropriate PPE, per CDC guidelines, by all physicians, staff, patients, and visitors in all OSUWMC facilities
- Implementing physical distancing within the hospital wherever possible
- Continuing emphasis on the importance of frequent hand hygiene

I understand certain risks are inherent to and associated with the various activities, research, and patient care conducted during clinical educational experiences. I acknowledge the following:

- While the risk of contracting COVID-19 during a clinical experience is low while using appropriate personal protective equipment in the proper manner, the risk cannot be eliminated. I understand that this clinical educational experience may increase my risk of exposure to COVID-19 and other illnesses or injuries. COVID-19, whether contracted in the community or during a clinical educational experience, could cause me to become ill and could, in extreme cases, result in permanent harm or death.
- That should I develop symptoms of illness, I must immediately contact the clinical education faculty and preceptor/clinical instructor for further instructions.
- That I must comply with the vaccine mandate to receive a clinical assignment.
- That I must comply with all compliance and safety rules, and all health screening practices of the facility of the clinical educational site to which I am assigned.
- That I must comply with all PPE standards of the clinical educational site to which I am assigned.
- That failure to comply with all expectations and practices could result in removal from or delayed return to the clinical education experience.
- That I have completed all required learning modules to prepare for the use of PPE, appropriate hand washing and hygiene, and other protocols to protect me from exposure to COVID-19 and other communicable diseases in the clinical setting.
If I fail to comply with the vaccine mandate or other clinical requirements, I acknowledge that my educational progress may be delayed or in some instances may not be able to be completed if certain clinical competencies are not able to be met.

I have read and understand the information stated above:
