CSM 2023 – Ohio State Presentation Schedule

Thursday, Feb. 23

Platform Presentations & Education Sessions

- Timothy Rethorn, Catherine Quatman-Yates, James Crick, Lindsay Harmon-Matthews and Gabriel Alain. Applying What You Learn: Quality Improvement Strategies Made Simple.
- Deb Kegelmeyer, Miriam Rafferty, Beth Crowner and Christine Criminger-Morris. Implementation Strategies for the Clinical Practice Guideline for People with Parkinson Disease.
- Barbara Smith and Kerry Lammers. Acute Care Science Meets Practice.
- Erin Thomas, Daniel Dale, Sharon Gorman, Alisa Curry, Kathryn Brito and Adele Myszenski. Simulation in Acute Care Education: An Oxford Debate.
- Elanna Arhos, N. Ito, L. Michener, Stephanie Di Stasi and R. Willy. Translating Biomechanics to the Clinic: What should clinicians make of all this data?
- Ashley Lea, Megan Siebert, Sarah Depp, Kathryn Martin, John Ryan, Lai Wei, Kendra McCamey and Stephanie Di Stasi. What Baseline Patient Factors are Associated with Self-Reported Disability in Greater Trochanteric Pain Syndrome?
- Cody Ballay, Adam Culiver, Christin M. Zwolski, Robert Magnussen and Laura Schmitt. Concomitant Injury-Related Plan of Care Alterations after ACLR: What is the Impact after 2 Years?
- Nicholas Aaron Colby, Cristiane C. Meirelles and Timothy Mark Pace. Comparison of AM-PAC and FSS-ICU in Patients Recovering from Open Heart Surgery in ICU.
- Elanna Arhos, Ryan Pohlig, Stephanie Di Stasi, May Arna Risberg, Lynn Snyder-Mackler and Karin Gravare Silbernagel. Subgroups of Athletes after ACL Rupture May Explain Clinically Relevant Long-Term Outcomes.

Poster Presentations

- Marino Bucci and Dominic Haynes. The Effect of Training How to Form the Therapeutic Alliance When Treating Patients with Back Pain.
- James P. Crick Jr, Lisa Juckett, Marka Salsberry, Carmen Quatman and Catherine Quatman-Yates. Do contextual factors matter? Acute care physical therapist experience level influences perceptions of fall prevention practice.
- Carly Smith, Gregory Edwards, Zeynep, Saygin and Jaclyn Caccese. Head Impact Magnitude and Sensorimotor Processing in Youth Tackle Football Participants.
- Miriam Hazlett, Timothy Rethorn, Sarah Clagg, Kristy Pottkotter, Catherine Quatman-Yates and Matt Briggs. Factors Affecting Application of Clinical Practice Guidelines in Patients with Neck Pain.

Friday, Feb 24***Platform Presentations & Education Sessions***

- Deb Kegelmeyer, Rachel Botkin, Jess Donovan, Monica Leach and Jonathan Zins. Home Health Mentorship for Geriatric Clinical Residents: Feasibility and Implementation.
- Mark Paterno, Michele LaBotz, Mitch Rauh, Jill Thein Nissenbaum and Christy Zwolski. Sport Specialization Among Youth Athletes: Where are we in 2023?
- Julie Peterson, Raine Osborne, Matt Briggs, Nicole Christensen, Greg Hartley and Gail Jensen. Uncovering the Value Proposition for Residencies: A Tale of Two Studies.
- Timothy Rethorn. Physical Activity Variability in Individuals with Chronic Brain Injury.
- Becca Brinker, Kerry Lammers, James Crick, Lindsay Harmon-Matthews, Michael Huber and Catherine Quatman-Yates. Triage 101: Development and Implementation of a Novel Patient Prioritization Tool.
- Abigail Geiger. Physical Therapy's Impact on Prognosis in Newly Diagnosed Multiple Myeloma with Skeletal Instability.
- Cristiane C. Meirelles, Arianna Farnsworth, Sidra L. Petit and Brent William Baertsche. Benefits of Inspiratory Muscle Training Following Redo Lung Transplantation in Cystic Fibrosis Patients: Case Series.
- Caroline L. Brunst, Christin M. Zwolski, Jamie Kronenberg, Staci Thomas, Mark V. Paterno and Laura C. Schmitt. The Impact of COVID-19 and Mixed Model Care Delivery on Meeting RTS Criteria Following ACLR.

Poster Presentations

- Sarah Depp, Katherine Martin, Claire Such, Lai Wei, John Ryan, Kendra McCamey and Stephanie Di Stasi.
Is better home exercise compliance associated with satisfaction and functional improvement in individuals with GTPS?
- Adam Culiver, Caroline Brunst, David Bennion, Bryan L. Riemann and Laura Schmitt. Isometric Knee Extension RTD Predicts Improvement in Function from 3.5 to 5.5 Months following ACLR.
- Deepthi Reddy, Madeline Grosklos, Jason Fanning, Cara L. Lewis, Gregory Friedberg and Stephanie Di Stasi. Momentary Relationships between Physical Activity and Pain in Persons with Femoroacetabular Impingement Syndrome.
- Brittany Knauss, Amy Compston and Elyse Redder. Resiliency among Older Adults Receiving Lung Cancer Treatment: (ROAR-LCT): A feasibility study.
- Gregory Edwards and Jaclyn Caccese. Saccades and Reaction Time following Concussion.
- Julia Mazarella and Jill Heathcock. Feasibility of PT Using Hippotherapy and the Equine Environment to Target Upper Extremities in Children.
- Elyse Redder, Vena Kallambettu and Cari Utendorf. The Effect of Complete Decongestive Therapy on Internal Lymphedema: A Case Report.
- Yusra Iftikhar, Madeline Grosklos, Gregory Friedberg, Cara L. Lewis, Jason Fanning and Stephanie Di Stasi. Feasibility of Ecological Momentary Assessments and Accelerometry to Study Activity-Pain Relationships in Femoroacetabular Impingement Syndrome.
- Cody Mansfield, Katherine Rethman, Laura Boucher, James Onate and Matt Briggs. Effects of Patellofemoral Pain and Dry Needling on Laterality Recognition and Function: A Pilot Study.
- Samantha Sech, Sarah Depp, Kathryn Martin, Lai Wei, John M. Ryan, Kendra McCarney and Stephanie Di Stasi. Hip Function and Physical Health after a 4-Week Home Program for Greater Trochanteric Pain Syndrome.
- Stephanie Di Stasi, Kathryn Martin, Sarah Depp, Liuqing Jia, Lai Wei, Kendra McCamey and John M. Ryan. Gluteal loading and activity modification versus standard exercise home program for greater trochanteric pain syndrome.
- Megan Siebert, Ashley Lea, Sarah Depp, Kathryn Martin, John Ryan, Lai Wei, Kendra McCamey and Stephanie Di Stasi. Factors Associated with Early Responsiveness to Exercise and Education for Greater Trochanteric Pain Syndrome.

Saturday, Feb 25

Platform Presentations & Education Sessions

- Gabriel Alain, James Crick, Catherine Quatman-Yates, Carmen Quatman, J.J. Kuczynski, Lindsay Harmon-Matthews, Kerry Lammers, Stephanie Bendinelli and Marka Salsberry. Leveraging Systems Science and Quality Improvement Methodologies to Address Immobility Harm in the Acute Setting.

Poster Presentations

- Leah Roten, Daniel Richie and Ajit Chaudhari. Shoulder Loading during Deceleration/Follow-through of Softball Pitching: Implications for Injury/Injury Prevention
- Jamie Kronenberg, Catherine Quatman-Yates, Christin Zwolski, Mark Paterno and Laura Schmitt.

(If we missed any Ohio State presentations, please accept our apologies; we strive for completeness.)
