Radiation Therapy Program Student Learning Outcomes

Our mission is realized by assuring our students will be able to:

1. Demonstrate critical thinking through evidence-based practice and professional decision making in the care of patients.
   
   **Learning Outcomes:**
   
   • Student will recognize and resolve deviations related to treatment delivery.
   • Students will critique IGRT images when accurately defining the treatment fields.

2. Demonstrate clinical competency through mastery of knowledge, psychomotor skills and clinical reasoning while providing high quality patient care.
   
   **Learning Outcomes:**
   
   • Students will demonstrate simulation skills.
   • Students will demonstrate treatment delivery skills.
   • Graduates will demonstrate competence in the work environment.

3. Communicate in a clear and effective manner, both verbally and in writing with people of diverse backgrounds.
   
   **Learning Outcomes:**
   
   • Students will demonstrate effective oral communication.
   • Students will demonstrate effective written communication.
   • Students will demonstrate effective presentation skills.

4. Cultivate a professional work ethic, demonstrating a positive attitude and leadership skills.
   
   **Learning Outcome:**
   
   • Students/Graduates will exhibit a professional work ethic in the clinical setting.
