

The Ohio State University
School of Health and Rehabilitation Sciences
Division of Physical Therapy
Seeks Applications For
Assistant, Associate or Full Professor

The Division of Physical Therapy in the School of Health & Rehabilitation Sciences at The Ohio State University invites applications for a tenure-track, 12-month faculty position at the rank of Assistant, Associate or Full Professor. We seek a candidate with demonstrated excellence or evidence of the potential to develop nationally/internationally-recognized scholarship and a strong commitment to professional and graduate education. The candidate must have an earned research doctorate in a related field and be eligible for licensure as a physical therapist in Ohio. Preferred qualifications include experience developing or working in interdisciplinary research teams as the potential for collaboration and joint appointment in other colleges and departments is high. Experience in mentoring members of underrepresented groups is desirable. The successful candidate will teach in the DPT Program, within their area of expertise, and in the PhD program in Health & Rehabilitation Sciences (HRS) at a level supporting pursuit of a rigorous research program. The successful candidate will also contribute to service at the national and international levels as well as to the Division, School and University. Salary is commensurate with experience and qualifications. Start-up funds will be negotiated to accompany this position.

The Ohio State University is committed to establishing a culturally and intellectually diverse environment, encouraging all members of our learning community to reach their full potential. The University offers nearly limitless possibilities for collaboration and innovation and is situated in Ohio's largest metropolitan community with a family-friendly, vibrant and diverse economy and culture. We are responsive to dual-career families and strongly promote work-life balance to support our community members. We are an NSF Advance Institution and a member of the Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium.

As a Top-10 Physical Therapy program nationally, the Division is a thriving academic unit of nationally and internationally-recognized scientists, master clinicians, and professional leaders, admitting approximately 48 professional students per class pursuing a DPT. The PT Division serves as the hub for 6 post-professional residencies in geriatrics, neurology, orthopaedics, pediatrics, sports, and women's health, and several clinical fellowships. Rich interactions with these emerging clinical leaders as well as the outstanding physical therapy clinics of the Wexner Medical Center at Ohio State provide a dynamic environment for excellence in education,

research, and clinical practice. The Division and School support the development of a of high-quality research and innovative education programs that advance the best science of physical therapy practice by all faculty members.

The Division is part of the School of Health & Rehabilitation Sciences, a nationally recognized leader in the undergraduate and graduate education of health professionals in the fields of athletic training, health information management and systems, medical dietetics, medical laboratory science, occupational therapy, physical therapy, respiratory therapy, and radiologic sciences and therapy with more than 1200 students. Over 20 graduate students are currently pursuing a PhD in HRS including students from PT, OT, Athletic Training, and other health professions. The School's 40 faculty members are experts in their respective fields who lead the way in educational advances, growth of their professions and cutting-edge research. As part of the College of Medicine and OSU Wexner Medical Center, the School is situated in one of the most comprehensive health sciences centers in the nation providing unmatched opportunities for collaboration in health research and interprofessional education, as well a broader collaboration with colleges such as engineering, education, public health, and more.

Applications will be accepted until the position is filled. Review of applications will begin on December 1, 2016 and will continue until the position is filled. The appointment is effective September 1, 2017. Expressions of interest will be held in confidence and references will not be contacted without the candidate's permission. The curriculum vitae and letters of reference shall be shared with Division and School faculty.

Application Instructions:

Applicants should upload a cover letter, CV, list of references, research statement, teaching statement, and diversity statement
