The Ohio State University Division of Occupational Therapy seeks an outstanding candidate at the Assistant, Associate or Full Professor level to contribute to the continued growth of our Doctorate of Occupational Therapy (OTD) program.

The successful candidate will join a dynamic, collaborative, and well-balanced faculty of successful scientists, master clinicians, and professional leaders with records of excellence in teaching, scholarship, professional service, and clinical practice, all situated in one of the country’s most established OT programs. Our program is ranked 12th nationally, offering a multitude of simulation didactic, and clinical experiences to our outstanding students, as well as boasting 4 ongoing NIH RO1 trials, clinical specialization opportunities, and > 100 peer reviewed publications in the past 3 years alone. The candidate will also contribute to an established, interdisciplinary, PhD program in Health and Rehabilitation Sciences, with a dual degree track option (OTD/PhD). Additionally, the Division is located in a major academic medical center and research extensive university, offering an array of collaboration and innovation opportunities. Columbus, Ohio is the 15th largest city in the country, and offers innumerable cultural and sporting events.

Qualifications:
- Earned research doctorate
- Licensure or eligibility for licensure in Ohio
- Established, national reputation and scholarly agenda in physical rehabilitation, orthopedics or cancer rehabilitation.
- Post-doctoral training is preferred.

Responsibilities:
- Teaching and advising graduate students at the OTD and PhD levels
- Conducting research in alignment with the missions of the Division, School, and University
- Service and community engagement in alignment with the candidate’s interests and those of the Division, School, and University

Interested individuals should submit a cover letter, curriculum vitae, and full contact information for three references to: Steve Page, Chair, Search Committee, School of Health and Rehabilitation Sciences, The Ohio State University, 453 West 10th Avenue, Columbus, Ohio 43210 (Stephen.Page@osumc.edu). Screening of applications will begin immediately and continue until a successful applicant is identified.
